Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	1. Incorporate the four programme components in the new CPD cycle	1. To be strategically positioned and competitive UNFPA should ensure that the next CPD cycle is designed taking into consideration the structure of the UNFPASP by ensuring all the four programme components are incorporated and assigned key performance indicators, particularly increased strategic focus on adolescent and youth and population dynamics and generation of disaggregated data to inform inclusion in targeting by the CP.	Accepted	High	1.1 9th full-fledged CPD prepared	1.1.1 Prepare the new CPD including the 4 components on RH, Gender, Youth and P&D, fully aligned with the Strategic Framework, SP, transformative results and the national priorities and get approval of CPD by the executive board.	12/31/22	YES
Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	2. strengthen institutional capacity building and systems development	2. UNFPA needs to strengthen institutional capacity building and systems development to curb weak capacities, in addition to high turnover of staff. Further, UNFPA needs to strengthen planning processes to reduce late disbursement of funds to the IPs, in addition to conducting prior assessment of the IPs to ensure that they are authorized by the government to work in the target locations to also limit delays of the government approvals.	Accepted	High	2.1 IP institutional Capacity strengthening and systems/processes development	2.1.1 Implement the capacity building activities for the IP (tailored on the job training and coaching) and follow up with monitoring and coaching visits. Support the IPs to develop and implement management systems/processes and tools to improve their operations' efficiency.	12/31/22	YES
Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	2. strengthen institutional capacity building and systems development	2. UNFPA needs to strengthen institutional capacity building and systems development to curb weak capacities, in addition to high turnover of staff. Further, UNFPA needs to strengthen planning processes to reduce late disbursement of funds to the IPs, in addition to conducting prior assessment of the IPs to ensure that they are authorized by the government to work in the target locations to also limit delays of the government approvals.	Accepted	High	2.2 Strengthen planning processes to reduce late disbursement to IPs	2.2.1 Early start of the preparation of the annual IP work plans.	12/31/22	YES
Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	3. Population dynamics	3. Strengthen integration of population dynamics into planning and sectoral strategies to influence policy and decision-making, and support effective dissemination and use of generated data.	Partially Accepted	High	3.1 Capacity building on data processing, generation, dissemination and integration in national and local planning	3.1.1 Advocate among policy makers, national planners, and professionals for better integration of population dynamics in developing local, sectoral and national plans within the humanitarian and developmental contexts to meet ICPD-based SDGs. 3.1.2 Enhance the capacity of statistical systems on data collection, analysis and dissemination in support of evidence based policies and strategy formulation, enabling the targeted population to have a better access to UNFPA assisted services. 3.1.3 Enhance the capacity of academics in the generation and analysis of data in support of UNFPA development and humanitarian programs. 3.1.4 Enhance the capacity of national partners in the localization of ICPD-based SDGs, and to enhance the accessibility of the targeted population to UNFPA assisted services	12/31/22	YES
Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	4. Capacity building and community level engagement	4. Prioritize capacity building and community level engagement to facilitate sustainability in the country. In the context of COVID-19, strengthen capacities of the community level stakeholders to take responsibilities for ensuring effective delivery of services, strengthen community structures, including government to enhance oversight role in the programme implementation processes and strengthen localized coordination mechanism among stakeholders in a particular locality for ease of coordinated response.	Accepted	High	4.1 Capacity building of community lead initiatives and local NGOs	4.1.1 Develop capacity building plan for 12 months targeting all supported partners including HR, Strategies, updated guidelines 4.1.2 Advocacy and awareness raising and provide PPE items and medical equipment and supplies for implementing partners for the prevention and treatment of covid 19 4.1.3 Rollout the case Management Capacity Building Initiative (CM-CBI) pilot project to enhance the capacity of service providers and UNFPA staff 4.1.4 Establish a feedback mechanism in consultation with the local communities and implementing partners	12/31/22	YES

Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	5. Resilience	5. Strengthen resilience building, amid the protracted context, in addition to strengthening governance and state building structures to enhance participation and ownership of the stakeholders in national decision-making	Partially Accepted	Medium	5.1 Improving the quality of and strategizing the resilience building program	5.1.1 Engage women and youth in performing independent assessments to identify resilience building pathways 5.1.2 Implement resilience building program in crisis and climate-sensitive manner 5.1.3 Identify clear linkages between the programs's results and UNFPA's development indicators 5.1.4 Capacity building to UNFPA and IPs team on resilience building programming in fragile context	12/31/22	YES
Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	6. UNCT coordination	6. UNFPA should maintain its proactive role in the functioning of the UNCT coordination and explore opportunities for joint programming and advocate for more accountability among UN agencies	Accepted	High	6.1 Participation in UN coordination structure	6.1.1 Continue leading and co-leading UNCT related coordination groups in agreement with UN agencies	12/31/21	YES
Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	6. UNCT coordination	6. UNFPA should maintain its proactive role in the functioning of the UNCT coordination and explore opportunities for joint programming and advocate for more accountability among UN agencies	Accepted	High	6.2 Joint projects	6.2.1 Prepare and implement joint projects with UN agencies	12/31/22	YES
Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	7. M&E System	7. Invest in an effective and dynamic M&E System that is results-based and promotes objective tracking of performance throughout the programme cycle.	Accepted	Medium	7.1 Enhancing the monitoring and evaluation system	7.1.1 Develop the M&E plan and Theory of change for the new country program document 7.1.2 Introduce new elements and fine tune existing M&E tools to correspond to and allow assessing the performance at outcome and impact level 7.1.3 Conduct capacity building for UNFPA third party monitors on M&E tools and processes to ensure full adoption and utilization of the tools for monitoring purposes at field level 7.1.4 Apply in depth analysis to maximize the utilization of the available data to inform better programming in order to contribute to achieving UNFPA three transformative results. 7.1.5 Establish a tracking mechanism/spreadsheet to follow up on the progress made to address impact assessment/other assessments' recommendations .	12/31/22	YES
Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	8. Sexual and reproductive health	8. Strengthen partnership for integrated RH/FPHV/GBV/Cancer services and wide coverage of the targeted locations, while at the same time increasing a more focused approach in terms of the scope of the programme. Strengthen improvement of quality RH services and information through capacity building, development of guidelines, SOP and enhance monitoring for progress. Further, there is a need for strengthening FPRH commodity delivery, monitoring and reporting and to ensure availability at all levels of service delivery.	Accepted	High	8.1 Strengthening Quality of services	8.1.1 Utilize the quality of services tools in the regular monitoring and follow up activities by UNFPA Ips	12/31/22	YES
Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	8. Sexual and reproductive health	8. Strengthen partnership for integrated RH/FPHV/GBV/Cancer services and wide coverage of the targeted locations, while at the same time increasing a more focused approach in terms of the scope of the programme. Strengthen improvement of quality RH services and information through capacity building, development of guidelines, SOP and enhance monitoring for progress. Further, there is a need for strengthening FPRH commodity delivery, monitoring and reporting and to ensure availability at all levels of service delivery.	Accepted	High	8.2 Strengthening partnership for Integrated Cancer Services	8.2.1 Contribute through SFPA partner in the national survey for early detection of breast and cervical cancer	12/31/22	YES

Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	8. Sexual and reproductive health	8. Strengthen partnership for integrated RH/FPMH/GBV/Cancer services and wide coverage of the targeted locations, while at the same time increasing a more focused approach in terms of the scope of the programme. Strengthen improvement of quality RH services and information through capacity building, development of guidelines, SOP and enhance monitoring for progress. Further, there is a need for strengthening FPRH commodity delivery, monitoring and reporting and to ensure availability at all levels of service delivery.	Accepted	High	8.3 Strengthening partnership for Integrated GBV Services	8.3.1 Implement the new approach of the integrated services started in 2020 through mobile teams in 50% of the static supported facilities taking into consideration limitations might be faced to obtain government approvals	12/31/22	YES
Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	9. Adolescent and Youth	9. UNFPA should build further capacity of the country in integration of youth and gender friendly services within the support centres, in addition to increased investment in innovations by young people in use of digital and online platforms and other approaches to increase access of information and uptake of SRH services by adolescents and youth. UNFPA should also continue with the meaningful engagement of young people in adolescent and youth programme interventions	Accepted	High	9.1 Enhance integration of age and gender tailored services into UNFPA-supported services	9.1.1 Enhance youth access to meaningful engagement and build young people capacity on innovation and support of youth led initiatives focusing on SRH and gender equality through digital and online platforms. 9.1.2 Develop age- and gender-sensitive quality RH and GBV prevention and response services addressing the needs of young people. 9.1.3 Include young people in the development, assessment and monitoring of age-sensitive quality RH and GBV prevention and response services. 9.1.4 Enhance the current M&E tools to enable collecting age and gender disaggregated and capturing youth accessing services 9.1.5 Enhance the capacities of the communities, youth and service providers on MHPSS to provide quality services to women, men, girls and boys including PWD	12/31/22	YES
Syria Country program Evaluation	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	10. Gender equality and women empowerment	10. The UNFPA Syria CO should enhance advocacy for increased investment and systems strengthening to foster consistent and sustained social norm change targeting duty bearers, service providers, leaders and local communities, including involvement of men. Further, there is a need for evidence-based response through conducting research.	Accepted	High	10.1 Strengthen institutions and legislations to respond to gender equality and women empowerment and protect GBV survivors	10.1.1 Advocate and build capacities of the government and local NGOs in terms of gender analysis to ensure gender is mainstreamed in the programs and services 10.1.2 Provide technical and financial support to the governmental institutions in redrafting the discriminatory laws against women toward the ultimate goal of gender equality 10.1.3 Support the government to reflect its commitment to the last Nairobi summit in developing WP to combat early marriage 10.1.4 Strengthening the FPU shelter capacities in terms of HR, code of conduct and SOPs through contracting a specialized INGO to provide on job training and draft SOPs for the FPU shelter 10.1.5 Conduct a formative research as part of the Pilot project on social norms to design an evidence-based programming in addressing social norms particularly intimate partner violence and early marriage	12/31/22	YES
\	2020	Syria CO	Country Programme Evaluation (CPE)	AS	Evaluation Coverage Time Period	2016-2020	1/1/15	5/30/16	11. Population Dynamics	11. Strengthen capacity to integrate population dynamics in the identification of IDPs, measurement of SDG, advancement of ICPD and south-south knowledge exchange and learning. In addition, there is a need for expansion of partnership to include universities or private sectors to advance research and production of population data for decision-making.	Accepted	High	11.1 Leveraging national capacity in meeting ICPD based SDGs	11.1.1 Enhance capacity of statistical system through South South Cooperation, contributing to better accessibility of the targeted population to UNFPA assisted services 11.1.2 Support the government in undertaking in depth research studies on Population and development including RH, Gender, GBV, and Youth issues, to enable having needed data that enhance the delivery of life saving services 11.1.3 Support the Government in activating and monitoring the implementation of national commitments work plan to accelerate the implementation of Nairobi Summit on ICPD25.	12/31/22	YES
