Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	1.1 Design related Develop TOC focusing on the three transformative results and Conduct Ex-ante evaluation to ensure evaluability of the planned programme	1.1 For CP7, for new initiatives, conduct a thorough evaluability assessment (ex-ante evaluations) at the onset of the programme for each planned CP/SP Output, under the SP outcome, assessing the availability of data (specifically for vulnerable and marginalized populations, including data on disability) for measuring performance, with an in-built M&E system.	Partially accepted	Cambodia CO	High	1.1 Evaluation	1.1 CO will conduct an evaluability assessment with APRO support.	6/30/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	1.1 Design related Develop TOC focusing on the three transformative results and Conduct Ex-ante evaluation to ensure evaluability of the planned programme	1.2 Develop monitoring tools for assessing quality improvement, improve on programme design-related issues based on identified programme gaps/needs; develop clear and detailed intervention logic model with risk assumptions and mitigation plans included for periodic checking along the process of implementation	Accepted	Cambodia CO	High	1.2 Monitoring	1.2 CO will develop and implement standardized monitoring tools. Create easy-to-use, standardized monitoring tools that assess quality improvement and use identified program gaps/needs in future programming. TOC for new CP will include risks and assumptions, which will be monitored.	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	1.1 Design related Develop TOC focusing on the three transformative results and Conduct Ex-ante evaluation to ensure evaluability of the planned programme	1.3 Prioritize UNFPA input with explicit sustainability strategies (exit strategies) in the work plan. Enhance program evaluability (with SMART and gender-sensitive indicators) to ensure that comparable data are available to measure the progress (either qualitatively and/or quantitatively using primary or secondary data). Formulate simple, practical, realistic and easy-to-measure indicators.	Accepted	Cambodia CO	High	1.3 Monitoring	1.3 CO will formulate simple, practical and easy-to-measure indicators for CP7 which include indicators for sustainability. Clear 'phase out' plans will be developed for key interventions with Government and partners to ensure sustainability	12/31/23	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	1.1 Design related Develop TOC focusing on the three transformative results and Conduct Ex-ante evaluation to ensure evaluability of the planned programme	1.4 Continue the focus on priority (target) provinces with key interventions, especially focusing on those that are directly contributing to three zeros, by contextualizing the interventions to suit an relevant to the ground level. To accelerate the achievement of the three transformative results, UNFPA is to continue to build on the successes in developing human capital and the achievements in improving the quality of life of women, girls and adolescents.	Partially accepted	Cambodia CO	High	1.4 Interventions	1.4 CO will determine priority provinces for the new CP.	12/31/23	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	1.1 Design related Develop TOC focusing on the three transformative results and Conduct Ex-ante evaluation to ensure evaluability of the planned programme	1.5 To make it feasible and easier to monitor and evaluate results, link all planned interventions to the three zeros as key objectives/outcomes of CP7, establishing clear results pathways between outcomes and outputs. Focus equally on setting indicators at intermediate and/or immediate level to measure results. It may be useful to engage the Communication team to effectively communicate the programme results to stakeholders.	Accepted	Cambodia CO	High	1.5 Monitoring	1.5 CO has been drafting the TOC to ensure there are clear result pathways as well as measurable indicators for CP7 that are all clearly linked to the 3 Zeros (communication team is engaged throughout the process)	12/31/23	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	1.1 Design related Develop TOC focusing on the three transformative results and Conduct Ex-ante evaluation to ensure evaluability of the planned programme	1.6 Establish measurement indicators for social norm changes as several programmes entail changes in behavior and it is necessary to determine preferred or expected changes and the measurement of those (attitude change, behavior change, gender norm changes etc. need to be measured). Include structural barriers or root causes that can impede the achievement of results	Accepted	Cambodia CO	High	1.6 Social norms	1.6 CO is commissioning studies on harmful social norms and practices to design proper behavior change interventions and indicators for social and behavior change will be formulated. These indicators will be formulated from the new CP	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	1.1 Design related Develop TOC focusing on the three transformative results and Conduct Ex-ante evaluation to ensure evaluability of the planned programme	1.7 Long-term (not limited to one cycle, if possible) interventions to be planned in a more focused manner at the Provincial level (sub-national level) to have a high impact.	Accepted	Cambodia CO	High	1.7 Interventions	1.7 CO will prioritise the interventions in relation to the geographic locations based on the available evidence from DHS and other studies.	12/31/23	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	1.1 Design related Develop TOC focusing on the three transformative results and Conduct Ex-ante evaluation to ensure evaluability of the planned programme	1.8 Create more opportunities to learn from good practices from the provinces and replicate them where possible, with due consideration to socio-cultural and other contextual factors that are specific to the situation.	Accepted	Cambodia CO	High	1.8 Sharing lessons learned/good practices	1.8 CO will make additional efforts to create opportunities for sharing lessons learned and good practices at the sub-national level	12/31/25	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	2. UNFPA to maintain the leadership role, as in CP6, in Coordination, Advocacy, and Strategic Partnerships and expand the current partnerships. Building on CP6 and other experience and maximizing UNFPA's comparative advantage explore joint programming with other UN agencies if adds value mutually, and specifically to UNFPA planned programmes. This to be finalized upon availability of shared resources, mutual agreement, on the new UNSDCF and how UNFPA mandate/ 3 TRs are positioned there, and on added value. Joint programmes to be focused on addressing the needs of the furthest left behind. With clear responsibilities – optimizing comparative advantage of each partner.	2.1 Building on past experience, maximize comparative advantage and resources available, explore joint programming with other UN agencies if it adds value mutually, and specifically to UNFPA planned programmes. This to be finalized upon availability of shared resources, mutual agreement, on the new UNSDCF and how UNFPA mandate/ 3 TRs are positioned there, and on added value. Joint programmes to be focused on addressing the needs of the furthest left behind. With clear responsibilities – optimizing comparative advantage of each partner.	Accepted	Cambodia CO	High	2.1 Coordination/partnership	2.1 CO will be seeking further JP opportunities in the areas of GBV and UHC, as well as Youth.	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	2. UNFPA to maintain the leadership role, as in CP6, in Coordination, Advocacy, and Strategic Partnerships and expand the current partnerships. Building on CP6 and other experience and maximizing UNFPA's comparative advantage explore joint programming with other UN agencies if adds value mutually, and specifically to UNFPA planned programmes. This to be finalized upon availability of shared resources, mutual agreement, on the new UNSDCF and how UNFPA mandate/ 3 TRs are positioned there, and on added value. Joint programmes to be focused on addressing the needs of the furthest left behind. With clear responsibilities – optimizing comparative advantage of each partner.	2.2 Conduct a scoping exercise (informal) to see which other development implementing partners are operating in the same thematic area or contributing to the same objectives of the operational strategies and interventions that UNFPA intends to include in CP7 (to be more coherent and to avoid any overlap). This may help in planning financing proposals as well.	Accepted	Cambodia CO	High	2.2 Mapping partners	2.2 CO will do mapping of partners in SRH and GBV in UNFPA target areas.	6/30/24	YES	Cambodia CO

Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	2. UNFPA to maintain the leadership role, as in CP6, in Coordination, Advocacy, and Strategic Partnerships and expand the current partnerships. Building on CP6 and other experience and maximizing UNFPA's comparative advantage explore joint programming with other UN agencies if it adds value mutually, and specifically to UNFPA planned programmes. This to be finalized upon availability of shared resources, mutual agreement on the new UNSDCF and how UNFPA mandate/ TRs are positioned there, and on added value. Joint programmes to be focused on addressing the needs of the furthest left behind. With clear responsibilities – optimizing comparative advantage of each partner.	2.3 Partnerships and Coordination: Engage private partners in development. Partnering with private sector may unlock financial resources and may promote new avenues to address and promote health and well-being of women and girls.	Accepted	Cambodia CO	High	2.3 Coordination	2.3 CO has been partnering with private sector and will continue to strengthen it. The partnership strategy will be prepared and attached with the new CP7	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	2. UNFPA to maintain the leadership role, as in CP6, in Coordination, Advocacy, and Strategic Partnerships and expand the current partnerships. Building on CP6 and other experience and maximizing UNFPA's comparative advantage explore joint programming with other UN agencies if it adds value mutually, and specifically to UNFPA planned programmes. This to be finalized upon availability of shared resources, mutual agreement on the new UNSDCF and how UNFPA mandate/ TRs are positioned there, and on added value. Joint programmes to be focused on addressing the needs of the furthest left behind. With clear responsibilities – optimizing comparative advantage of each partner.	2.4 Enhanced collaboration and coordination with CSOs to translate policy to action. Programme interventions to be contextualized as each province and its people have their own unique characteristics. Expanding and strengthening working relationships with civil society organizations working to end discrimination and promote equality. Specifically partnership with CSOs will be useful (a) to provide services to the most vulnerable where CSOs can be present but government services are in shortage or access to information and services are difficult, and (2) to help changing social and gender norms and empowerment of communities, especially women and girls.	Accepted	Cambodia CO	High	2.4 Partnership with CSOs	2.4 CO will engage with a broader range of CSOs to collaborate with to enhance implementation of policies related to the 3 TRs into action at the sub-national level.	6/30/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	2. UNFPA to maintain the leadership role, as in CP6, in Coordination, Advocacy, and Strategic Partnerships and expand the current partnerships. Building on CP6 and other experience and maximizing UNFPA's comparative advantage explore joint programming with other UN agencies if it adds value mutually, and specifically to UNFPA planned programmes. This to be finalized upon availability of shared resources, mutual agreement on the new UNSDCF and how UNFPA mandate/ TRs are positioned there, and on added value. Joint programmes to be focused on addressing the needs of the furthest left behind. With clear responsibilities – optimizing comparative advantage of each partner.	2.5 Country office to learn from other UNFPA country experiences where relevant and culturally appropriate. APRO to be consulted as information is available on other countries' good practices, regionally and globally. E.g., SRH in Garment Factories, Health, Leadership and Governance Programme (HLGP) (Philippines UNFPA), GBV guidelines and OSCAs (Malaysia, Sri Lanka), SWEDD (Africa demographic dividend), are a few examples that UNFPA Cambodia can benefit from.	Partially accepted	Cambodia CO	High	2.5 SSTC	2.5 CO will seek APRO support to learn from experience of other countries on SRH, GBV and demographic dividend	12/31/25	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	3 Gender Equality and Women's Empowerment to be considered as a stand-alone outcome. Maintain rights-based approach to gender equality, and engage with other ministries, going beyond current strategic partners (e.g. MEF, private partners). Response to GBV to be a more comprehensive and intersectional approach as it entails much more than the health sector response to GBV (however, not to lose sight of the MoH on health response to GBV, SRHR to maintain the same focus as in CP6). Focus on mainstreaming gender, and applying gender-transformative design principles in programme development.	3.1 Next CP cycle gender mainstreaming in PD efforts may focus on strengthening national and provincial capacity to monitor SDG (5, 1-3, 3, 5.6.1, and 5.6.2) and analyse trends and patterns.	Accepted	Cambodia CO	High	3.1 Capacity on monitoring	3.1 CO has been mainstreaming gender in PD. CO will support analyses and trends of DV and overall to help monitor SDGs at the national and provincial levels.	12/31/25	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	3 Gender Equality and Women's Empowerment to be considered as a stand-alone outcome. Maintain rights-based approach to gender equality, and engage with other ministries, going beyond current strategic partners (e.g. MEF, private partners). Response to GBV to be a more comprehensive and intersectional approach as it entails much more than the health sector response to GBV (however, not to lose sight of the MoH on health response to GBV, SRHR to maintain the same focus as in CP6). Focus on mainstreaming gender, and applying gender-transformative design principles in programme development.	3.2 Social Norm Change and Measurement (mentioned above as well). More focus on social norm change interventions (it is already there in CP6) embedded in the thematic area	Accepted	Cambodia CO	High	3.2 Social norm change	3.2 CO will focus more on addressing social norms specifically in the GBV work, but also across the three outcomes through prevention and behaviour change actions	12/31/25	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	3 Gender Equality and Women's Empowerment to be considered as a stand-alone outcome. Maintain rights-based approach to gender equality, and engage with other ministries, going beyond current strategic partners (e.g. MEF, private partners). Response to GBV to be a more comprehensive and intersectional approach as it entails much more than the health sector response to GBV (however, not to lose sight of the MoH on health response to GBV, SRHR to maintain the same focus as in CP6). Focus on mainstreaming gender, and applying gender-transformative design principles in programme development.	3.3 Include Gender Transformative programming to address root causes of gender inequality within society. Address social norms related to gender equality and GBV (service providers and service receivers).	Accepted	Cambodia CO	High	3.3 Social norm change	3.3 CO will increased focus on in-depth analysis on the social norms driver GBV to set the context for the next CP6.	6/30/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	3 Gender Equality and Women's Empowerment to be considered as a stand-alone outcome. Maintain rights-based approach to gender equality, and engage with other ministries, going beyond current strategic partners (e.g. MEF, private partners). Response to GBV to be a more comprehensive and intersectional approach as it entails much more than the health sector response to GBV (however, not to lose sight of the MoH on health response to GBV, SRHR to maintain the same focus as in CP6). Focus on mainstreaming gender, and applying gender-transformative design principles in programme development.	3.4 Development of tools to measure social norm change, attitude and behavior change of the individuals.	Accepted	Cambodia CO	High	3.4 Social norm change	3.4 The tools will be adapted as part of the work of 3.2, 3.3 and 1.6 and under Pillar 4 of the UNSDCF	12/31/23	YES	Cambodia CO

Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	3 Gender Equality and Women's Empowerment to be considered as a stand-alone outcome. Maintain rights-based approach to gender equality, and engage with other ministries, going beyond current strategic partners (e.g. MEF, private partners). Response to GBV to be a more comprehensive and intersectional approach as it entails much more than the health sector response to GBV (however, not to lose sight of the MoH on health response to GBV, SRHR to maintain the same focus as in CP6). Focus on mainstreaming gender, and applying gender-transformative design principles in programme development.	3.5 Allocate a specific budget line for Gender transformative interventions and integrate an intersectional gender equality analysis in relevant interventions under CP7.	Accepted	Cambodia CO	High	3.5 Budget for gender	3.5 CO will have a separate output for gender for CP7	12/31/23	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	3 Gender Equality and Women's Empowerment to be considered as a stand-alone outcome. Maintain rights-based approach to gender equality, and engage with other ministries, going beyond current strategic partners (e.g. MEF, private partners). Response to GBV to be a more comprehensive and intersectional approach as it entails much more than the health sector response to GBV (however, not to lose sight of the MoH on health response to GBV, SRHR to maintain the same focus as in CP6). Focus on mainstreaming gender, and applying gender-transformative design principles in programme development.	3.6 Working in connection with UNICEF on VAC, to address gender inequalities when addressing VAW. 3.6 Life cycle approach maybe appropriate in this situation as VAC and VAW can be closely related behavior patterns embedded in the family setting and some of the violent incidents occurring at a specific stage in a woman's life can recur or continue throughout her life.	Accepted	Cambodia CO	High	3.6 Partnership	3.6 CO will continue its discussions with UNICEF to identify potential areas of collaboration to address violence against women and girls (or children)	6/30/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	3 Gender Equality and Women's Empowerment to be considered as a stand-alone outcome. Maintain rights-based approach to gender equality, and engage with other ministries, going beyond current strategic partners (e.g. MEF, private partners). Response to GBV to be a more comprehensive and intersectional approach as it entails much more than the health sector response to GBV (however, not to lose sight of the MoH on health response to GBV, SRHR to maintain the same focus as in CP6). Focus on mainstreaming gender, and applying gender-transformative design principles in programme development.	3.7 Coordinate among UN Agencies and line ministries to lobby to include GBV in their operational plans	Accepted	Cambodia CO	High	3.7 Coordination and advocacy	3.7 CO will work with other UN agencies to advocate for line ministries to include GBV in their operational plans, in line with NAPVAW III&V	12/31/25	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	3 Gender Equality and Women's Empowerment to be considered as a stand-alone outcome. Maintain rights-based approach to gender equality, and engage with other ministries, going beyond current strategic partners (e.g. MEF, private partners). Response to GBV to be a more comprehensive and intersectional approach as it entails much more than the health sector response to GBV (however, not to lose sight of the MoH on health response to GBV, SRHR to maintain the same focus as in CP6). Focus on mainstreaming gender, and applying gender-transformative design principles in programme development.	3.8 Support to improve the capacity and the system on GBV case management maintaining utmost confidentiality with data.	Accepted	Cambodia CO	High	3.8 Capacity on GBV	3.8 CO will continue strengthening capacity of frontline workers on GBV case management in target provinces.	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	3 Gender Equality and Women's Empowerment to be considered as a stand-alone outcome. Maintain rights-based approach to gender equality, and engage with other ministries, going beyond current strategic partners (e.g. MEF, private partners). Response to GBV to be a more comprehensive and intersectional approach as it entails much more than the health sector response to GBV (however, not to lose sight of the MoH on health response to GBV, SRHR to maintain the same focus as in CP6). Focus on mainstreaming gender, and applying gender-transformative design principles in programme development.	3.9 Re-activate the plans to Initiate SSTC on OSCCs (GBV related) – although SSTC on OSCCs was planned in the CPAP due to financial constraints, it was not implemented.	Accepted	Cambodia CO	High	3.9 SSTC	3.9 CO will re-activate its SSTC initiative on OSCCs in the new CP.	6/30/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	4 Updating CSE working group. UNFPA to consider providing support to updating the existing working group, or initiating new CSE Technical Working Group (CSE-TWG)	4.1 UNFPA to provide support to updating the existing working group for more functioning on CSE or support initiating new CSE Technical Working Group (CSE-TWG) – CSE-WG is the technical group of partnership and coordination of UN Agencies, government (MoE/S, MoH, MoI, and MoWA), IEs, and CSO networks [2] who are working on CSE, SRHR, and GBV with AY. CSE-TWG to work together with a clear ToR to support both AY in and out of school.	Partially accepted	Cambodia CO	High	4.1 Coordination	4.1 CO will discuss and decide with MoE/S on how best to establish this working group as it is now part of health promotion working group. Currently, there are also working group on school health at the national level, sub-national level and school level.	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	4 Updating CSE working group. UNFPA to consider providing support to updating the existing working group, or initiating new CSE Technical Working Group (CSE-TWG)	4.2 At the national level, UNFPA to support MoE/S to finalize and publish CSE and selected policies related to SRHR, such as Cambodia Youth Development Index and Out of School Comprehensive Sexuality Education Strategic Plan.	Accepted	Cambodia CO	High	4.2 Policy and strategy	4.2 CPD 7 will focus on ensuring the comprehensive rollout and effective implementation of CSE across the country through technical support, capacity building, and monitoring.	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	4 Updating CSE working group. UNFPA to consider providing support to updating the existing working group, or initiating new CSE Technical Working Group (CSE-TWG)	4.3 UNFPA to coordinate with and support to CSO networks working in the education and health sector. In partnership with CSO networks, work with CSOs at local and community levels to benefit AY in and out of school population.	Accepted	Cambodia CO	High	4.3 Partnership with CSOs	4.3 The CO aims to expand its youth networks by fostering inter-UN collaborations and engaging with additional CSOs.	12/31/23	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	4 Updating CSE working group. UNFPA to consider providing support to updating the existing working group, or initiating new CSE Technical Working Group (CSE-TWG)	4.4 UNFPA to consider provision of material, financial and technical support to schools to develop SRHR consultative room for in-school adolescence and youth.	Accepted	Cambodia CO	High	4.4 Information and services for AY	4.4 The CO will support expansion of SRHR consultation rooms in schools in target provinces.	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	4 Updating CSE working group. UNFPA to consider providing support to updating the existing working group, or initiating new CSE Technical Working Group (CSE-TWG)	4.5 While continuing to empower youth, identify the social norms and the behavior change that needs to be addressed to achieve desired outcomes. Apply gender-transformative design principles in curriculum development and in all youth interventions (CSE curriculum has adopted a gender-transforming approach).	Accepted	Cambodia CO	High	4.5 Social and behavior change among youth	4.5 CO will intensify efforts on addressing social norms in the form of rollout CSE in CP7	12/31/24	YES	Cambodia CO

Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	4 Updating CSE working group. UNFPA to consider providing support to updating the existing working group, or initiating new CSE Technical Working Group (CSE-TWG)	4.6 While maintaining the UNFPA M&E framework as the primary reference for CP, UNFPA to work with MoH and MoEYS (on CSE) to conduct the Knowledge, Attitude and Practice (KAP) survey with AY. The survey will confirm the outcome and impact of UNFPA support on CSE. SRHR, GBV with in-school and out-of-school AY at the middle of CP7 – the survey will also provide the lesson learned and	Partially accepted	Cambodia CO	High	4.6 Research	4.6 This study will be included as part of the evidence generation for gender and social norms	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	4 Updating CSE working group. UNFPA to consider providing support to updating the existing working group, or initiating new CSE Technical Working Group (CSE-TWG)	4.7 Given the limited measurement of behaviour change, social and gender norm changes, develop indicators to measure these changes to monitor progress. For an effective Measurement of change behavior, the interventions should be based on systematic barrier analysis embedded in context-specific social norms, cultural beliefs, and practices.	Partially accepted	Cambodia CO	High	4.7 Social and behavior change	4.7 Same as 4.6	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	4 Updating CSE working group. UNFPA to consider providing support to updating the existing working group, or initiating new CSE Technical Working Group (CSE-TWG)	4.8 UNFPA to provide support to the MoEYS monitoring & evaluation department on fieldwork monitoring, reporting and learning on CSE roll-out activities.	Accepted	Cambodia CO	High	4.8 Monitoring	4.8 CO supported MoEYS to develop the SOP-SHP and tools for monitoring at the field levels. Mid-term review for CSE has indicated in CP7.	12/31/25	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	5. Joint programme. UNFPA to partner in more joint programmes, and establish clear theory of change and realistic indicators on final planned outputs (strong design and clear roles and responsibilities agreed upfront). Scale up (roll out) the experience gained from the joint programme in the three provinces (on migration project) to other areas, addressing similar issues as relevant to the local context	5.1 A planning and monitoring system to be inbuilt to understand if each agency contribution is on track for achieving the final outcome. In turn, this reinforces the need for a limited number of indicators that are practical and easy to monitor and to communicate easily	Accepted	Cambodia CO	Medium	5.1 Planning and monitoring	5.1 CO will refine this planning and monitoring system to improve inter-agency collaboration and maintain alignment with our program goals	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	5. Joint programme. UNFPA to partner in more joint programmes, and establish clear theory of change and realistic indicators on final planned outputs (strong design and clear roles and responsibilities agreed upfront). Scale up (roll out) the experience gained from the joint programme in the three provinces (on migration project) to other areas, addressing similar issues as relevant to the local context	5.2 UNFPA to develop, jointly with other UN partners, a clear and detailed theory of change (TOC) where a contribution analysis can be conducted	Partially accepted	Cambodia CO	Medium	5.2 TOC	5.2 CO has worked with the UNCT to develop a clear and detailed theory of change of UNSDCF where a contribution analysis can be conducted.	12/31/23	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	5. Joint programme. UNFPA to partner in more joint programmes, and establish clear theory of change and realistic indicators on final planned outputs (strong design and clear roles and responsibilities agreed upfront). Scale up (roll out) the experience gained from the joint programme in the three provinces (on migration project) to other areas, addressing similar issues as relevant to the local context	5.3 UNFPA to work on the TOC in collaboration with relevant IPs to have a clear understanding of the context, objectives, and expected results of interventions as well as to increase IP's ownership	Accepted	Cambodia CO	Medium	5.3 TOC	5.3 TOC to ensure a clear understanding of the context, objectives and expected results of interventions as well as ownership among relevant partners will be developed for CP7	12/31/23	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	6. Ensure and enhance the quality and availability of essential SRHR services to reach out to the community.	6.1 Increase access to SRHR information (including the modern contraceptive and ANC), particularly among the indigenous population	Accepted	Cambodia CO	High	6.1 SRHR information	6.1 The CO will intensify efforts to increase access to SRHR information for the indigenous population through different channels	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	6. Ensure and enhance the quality and availability of essential SRHR services to reach out to the community.	6.2 Working with MoH to address improving the quality of care programmes to address service providers' negative attitudes towards clients, promptness in attending to delivery of service (shorten waiting time), and improvement of quality of medical supplies.	Partially accepted	Cambodia CO	High	6.2 Quality of care and services	6.2 Improving the quality of care and services will be one of the priorities of the new CP7.	6/30/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	7. Collaboration with CSOs	7.1 UNFPA to consider enhancing more collaboration with CSOs both at national and sub-national level	Accepted	Cambodia CO	High	7.1 Partnership with women and youth organization to reach the left behind population regarding SRH and GBV services	7.1 The same as 2.4	6/30/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	7. Collaboration with CSOs	7.2 At the national level, it will be beneficial for UNFPA to gather evidence and lessons learned from the CSO's downstream implementation to inform policies at their development stage to shape the policies that are contextually appropriate and relevant to the ground level.	Accepted	Cambodia CO	High	7.2 Evidence and lessons learned	7.2 CO has already gathered evidence and lessons learned as part of the monitoring and reporting efforts. CO will share lessons learned during our annual review workshop.	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	7. Collaboration with CSOs	7.3 At the sub-national level, UNFPA could facilitate the work with CSO to create demand generation of the essential SRHR service, particularly the AYES and GBV, so that the gaps between community and service points of delivery would be narrowed.	Accepted	Cambodia CO	High	7.3 SRHR service	7.3 CO will continue partnering with CSOs and government to create demand generation for services. Allocation of funding will be a subject to availability of other resources and comparative advantage of CSOs.	6/30/25	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	8. Data accuracy at subnational levels to be improved and data coordination between national and subnational levels to be strengthened. Continue to strengthen institutional capacities on production of quality data through census and relevant national surveys, data analysis, and dissemination, especially on large dataset management and analyses using more robust and rigorous advanced statistical	8.1 Continue to strengthen the availability of quality data to guide policymaking, planning, and programming. This will also help evidence-based advocacy for the rights of those populations left behind and also advocate for gender equality.	Accepted	Cambodia CO	High	8.1 Data	8.1 CO will continue to strengthen and enhance the availability of quality data	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	8. Data accuracy at subnational levels to be improved and data coordination between national and subnational levels to be strengthened. Continue to strengthen institutional capacities on production of quality data through census and relevant national surveys, data analysis, and dissemination, especially on large dataset management and analyses using more robust and rigorous advanced statistical	8.2 Continue to provide both technical and financial support to the government on accelerating the C/SDGs and ICPO25 agenda including the promotion of utilization of data and evidence for the development of policies, planning and programming. Inter-census data, NSDP, national strategies on statistical development, C/SDGs.	Accepted	Cambodia CO	High	8.2 Support to accelerate CSDGs and ICPO25	8.2 CO will continue to provide technical support to the government to accelerate the achievements of CSDGs and ICPO25 Agenda. The data will be used for supporting policy and programme formulation.	12/31/24	YES	Cambodia CO

Continue to strengthen institutional capacities on production of quality data through census and relevant national surveys, data analysis, and dissemination, especially on large dataset management and analyses using more robust and rigorous advanced statistical	8.5 Strengthening the capacity of NIS for the generation of quality data through census and relevant household surveys, and	Accepted	Cambodia CO	High	8.5 Capacity building	8.5 CO will continue building capacity of NIS on data generation through relevant household surveys	12/31/25	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	8. Data accuracy at subnational levels to be improved and data coordination between national and subnational levels to be strengthened. Continue to strengthen institutional capacities on production of quality data through census and relevant national surveys, data analysis, and dissemination, especially on large dataset management and analyses using more robust and rigorous advanced statistical	8.6 Continuing to generate and carry out the development of knowledge management on the changing demography and its megatrends of the country for better forecasting of the impact and their future implications on the economy, and opportunities for harnessing double demographic and gender dividends.	Accepted	Cambodia CO	High	8.6 Knowledge management	8.6 CO will generate and share evidence on population dynamics and megatrends to be used for forecasting the STRs.	12/31/25	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	8. Data accuracy at subnational levels to be improved and data coordination between national and subnational levels to be strengthened. Continue to strengthen institutional capacities on production of quality data through census and relevant national surveys, data analysis, and dissemination, especially on large dataset management and analyses using more robust and rigorous advanced statistical	8.7 Strengthen UNFPA's in-house capabilities of PD on in-depth statistical data analyses, large dataset management and advanced digital communication skills while providing support with technical assistance to build national capacity.	Accepted	Cambodia CO	High	8.7 Capacity building	8.7 CO will organize learning sessions to improve CO staff capacity in data analysis	6/30/25	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	8. Data accuracy at subnational levels to be improved and data coordination between national and subnational levels to be strengthened. Continue to strengthen institutional capacities on production of quality data through census and relevant national surveys, data analysis, and dissemination, especially on large dataset management and analyses using more robust and rigorous advanced statistical	8.8 Lead coordination of different studies and findings needed within and outside the UNFPA office on different thematic areas such as GBV, SRH, AY, MCH, Migration, etc., and share consistent data figures with stakeholders.	Accepted	Cambodia CO	High	8.8 Research studies	8.8 CO will coordinate different studies on GBV, SRH, AY, MCH and Migration through D4D and UNCT.	12/31/25	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	9. Technology and innovation - Adoption of a digital technology and digital platform for advancing programme intervention in CP7	9.1 UNFPA to continue to adjust and adapt the digital technology for advancing the programme interventions, (the suggestion on using social media is based on the results of COVID-19 response to GBV)	Accepted	Cambodia CO	High	9.1 Technology and innovation	9.1 CO will strengthen the existing innovation projects (GBV app, chatbot) through integrating additional information and services to accelerate the achievements of STRs. Cohesive BCC interventions will be designed as part of CP7 2024-2028.	6/30/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	9. Technology and innovation - Adoption of a digital technology and digital platform for advancing programme intervention in CP7	9.2 Adoption of a digital platform for the supply and demand side of the health system for capacity building of health workers, and also to share educational messages for awareness raising purposes to specific groups or wider general audiences.	Accepted	Cambodia CO	High	9.2 Technology and innovation	9.2 CO will strengthen E-learning platform for SRHR, including family planning information. The CO will also continue the telemedicine for SRHR in line with the Digital Health Strategy of the MoH.	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	9. Technology and innovation - Adoption of a digital technology and digital platform for advancing programme intervention in CP7	9.3 Coordinate with other government line ministries such as MoEF, MoH, MoI, MoLVT, MoYS, MoWA and others to learn and share experience on digital data collection, data development, data management, data utilization and analyses using more advanced robust estimated models such as small area estimation or other prevalence estimation methods.	Partially accepted	Cambodia CO	High	9.3 Lessons learned	9.3 CO will work with MoP to share experience on digital data collection for CDHS with other stakeholders.	12/31/25	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	10. Advocating for Institute for in-service training UNFPA to advocate the MoH to consider having dedicated body/institute for in-service training provided before deploying midwives into their work stations.	10.1 UNFPA to continue supporting the in-service training, coping with the health system challenges on the midwife workforce turnover.	Accepted	Cambodia CO	Medium	10.1 Training	10.1 UNFPA will continue to work on pre-service for midwifery skills for the existing interventions in UNFPA priority areas as a part of the new CPD 2024-2028	12/31/24	YES	Cambodia CO
Cambodia Country Programme Evaluation (2019 - 2023)	2023	Cambodia CO	Country Programme Evaluation (CPE)	AP	2019-2023	1/1/15	5/30/16	10. Advocating for Institute for in-service training UNFPA to advocate the MoH to consider having dedicated body/institute for in-service training provided before deploying midwives into their work stations.	10.2 Rather than providing the in-service training at specific target provinces, UNFPA may advocate for setting up a programme to ensure that all newly recruited midwives are equipped with in-service courses before being dispatched to their workplace.	Accepted	Cambodia CO	Medium	10.2 Training	10.2 UNFPA is already contributing to the national programme on in-service course for midwifery work. CO will continue supporting this intervention as part of CP7	6/30/24	YES	Cambodia CO
