**TERMS OF REFERENCE FOR THE EVALUATION OF THE
9TH COUNTRY PROGRAMME OF ASSISTANCE TO THE GOVERNMENT OF BANGLADESH
(2017-2020)**

**UNITED NATIONS POPULATION FUND
BANGLADESH**

5 MAY 2019

1. INTRODUCTION

UNFPA Bangladesh is planning to conduct the independent evaluation of the UNFPA 9th Country Programme of Assistance to the Government of Bangladesh (2017-2020) as part of its 2019 annual work plan, and in accordance with the UNFPA evaluation policy 2019.

As per the evaluation policy, evaluation at UNFPA serves three main purposes: (i) demonstrate accountability to stakeholders on performance in achieving development results and on invested resources; (ii) support evidence-based decision-making; (iii) contribute important lessons learned to the formulation of the next Country Programme in Bangladesh.

The main audience and primary users of the evaluation are the decision makers and programme managers in UNFPA Bangladesh (CO), UNFPA Asia and the Pacific Regional Office (APRO) and UNFPA Headquarter divisions, as well as counterparts in the Government of Bangladesh (GOB). Additionally, partners among donors (Sweden, Canada, Netherlands, UK), civil society and other sister UN agencies (e.g. WHO, UNICEF, UN Women, ILO and the RCO) are the intended audience for the evaluation report.

The evaluation will be an external, independent exercise conducted by an independent team of evaluators, in accordance with UNFPA guidance on Country Programme Evaluations, ethical norms and UNEG standards. The evaluation will be managed by the CO in close collaboration with the Regional M&E Adviser in APRO and with oversight from the Independent Evaluation Office of UNFPA in New York.

These Terms of Reference (ToR) set out the details of the evaluation process, methodology, outputs and management arrangements, including quality assurance mechanisms.

2. CONTEXT

Bangladesh, in 2018, for the first time in history, has fulfilled the eligibility criteria set by the World Bank to be recognized as a developing country, crossing over from the list of least developed countries (LDCs). Currently Bangladesh is a country of 168 million population with 1.1% annual growth rate whereas the density of population (per sq. km) is 1,103 persons (SWOP 2019). The country is in the third stage of the demographic transition model - low birth rate and low death rate. The demographic transition is made possible by successful efforts in family planning, advancing educational attainment and gender equality, and reducing infant mortality and poverty.

The growth rate of Gross Domestic Product (GDP) in Bangladesh increased to 7.65% in 2017-18 from 6.55 percent in 2014-15. GDP Annual Growth Rate in Bangladesh averaged 5.76 percent from 1994 until 2017, reaching an all-time high of 7.30 percent in 2017 and a record low of 4.08

percent in 1994. The per capita income has increased to \$1,751 in FY2017-18 from \$1,610 in the previous fiscal year, according to Bangladesh Bureau of Statistics (BBS). The economy is increasingly led by export-oriented industrialisation. The Bangladesh garment/textile industries are the second-largest in the world. Other key sectors include pharmaceuticals, shipbuilding, ceramics, leather goods and electronics, etc. Bangladesh has also reached self-sufficiency in food grain production.

Bangladesh has made significant progress in achieving many of the goals of the ICPD Programme of Action and the Millennium Development Goals (MDGs). The national development plans, i.e. the Seventh Five Year Plan, also focused on the general improvements in the quality of life of the Bangladeshi people. Bangladesh has been successful in achieving significant poverty reduction since 1990. The poverty rate was 56.7% in 1991, which came down to 24.3% in 2016. And the extreme poverty rate was 41.1% in 1991, which declined to 12.9% in 2016 (Source: Vulnerable National Review 2017, Government of Bangladesh). However, progress has been uneven, and socio-economic, geographical and gender inequalities have been widened. Especially, inequalities in access to quality reproductive health services and disparities in health outcomes and gender inequalities in many areas persist in the country.

Following a very successful Family Planning programme, the total fertility rate (TFR) fell from 3.3 in 1999-2000 to 2.05 in 2018 (SVRS 2018). According to the UNFPA-commissioned *Demographic Impact Study 2015*, the country is adding 2 million people to its population every year, and it will reach 200 million by 2041 based on the medium projection (TFP=1.9), and by 2031 based on the high projection if TFR stayed at 2.3. The country is now going through a ‘demographic window of opportunity’ with more than 30% of its population being young (10-24 years of age). However, two shifts are also taking place in the country’s demography: while population ageing is increasing (8% in BBS, SVRS 2018), the working aged population is also increasing (62.7% in SVRS 2018). Contraceptive Prevalence Rate (CPR) has only slightly increased to 62.4% in 2014 from 61.2% in 2011 (BDHS 2014). The use of modern family planning methods constitutes 54%; pill is by far the most widely used method (27%), followed by injectables (12.4%), female sterilization (4.6%) and condom (6.4%). Uses of long-acting and permanent methods (LAPM) such as sterilization, IUD or Norplant is low at 8.1% only. Unmet need for family planning has declined to 12% in 2014, from 13.5% in 2011. There are marked regional variations in the total fertility rate and contraceptive usage. Contraceptive usage and the unmet need for family planning is also widely different to the national averages, with a CPR of only 52% and an unmet need for family planning of 17% among married adolescents. Some key factors contributing to this phenomenon are low educational levels, continued son preference, high infant mortality, gender inequality, and poor status of women.

A gender-inequitable culture of impunity and silence perpetuates the prevalence of gender-based violence (GBV) in the country. According to the Violence against Women (VAW) Survey conducted by the Bangladesh Bureau of Statistics in 2015, about 73 percent of ever-married women in Bangladesh have experienced some form of partner violence in their lifetime, and

more than half (54.7 percent) have experienced violence in the last 12 months prior to the survey. Bangladesh is also the 2nd worst in the world regarding child marriage. In spite of the law allowing girls to marry only after the age of 18 years, a significant 58.6% of women of 20-24 years old were married before 18 (BDHS 2014). Child marriage is followed by early first delivery. Adolescent fertility in Bangladesh is still one of the highest in the world, with 78 live births per 1,000 girls 15-19 years of age (SWOP 2019), the worst in South Asia. Access to appropriate SRH information and services for young people, especially unmarried girls and boys, is inadequate. Young people are also vulnerable to STI/HIV/AIDS and drug abuse.

The maternal mortality ratio (MMR) declined to an estimated 176 in 2015, from 574 in 1990 (UN Population Division estimate). The proportion of deliveries by medically trained providers has increased 2.6 times, from 16% in 2004 to the current level of 42% (BDHS 2014). That means, 58% of all deliveries are conducted without any skilled health personnel (BDHS 2014). Still an estimated 5,200 women die in pregnancy or childbirth every year. Tackling maternal mortality and morbidity including obstetric fistula, will continue to be a serious challenge. Majority (51%) of the maternal deaths are due to two preventable causes, i.e. haemorrhage and eclampsia. One fifth of all maternal deaths are due to obstetric causes related to abortion and its complications, 14% of pregnant women's deaths are associated with violence and injuries. Morbidity is estimated to be 30 times higher than that of maternal mortality. Ensuing safe delivery with referral linkages, and addressing “three delays” and management of complications and Emergency Obstetric Care (EmOC) services, are critically important for saving women's life as well as the newborns. About half of the pregnant women are malnourished (BMI <18) and most of them suffer from anaemia and other ailments related to nutritional deficiency. Therefore, despite some progress in Human Development Index (HDI) (136 in 2017) among 189 countries, the status of women still remains low (0.567 GDI).

Accordingly the Fragile State Index 2018 marked Bangladesh as one of the countries in the “Alert” category. With a Fragile State Index of 90.3, Bangladesh ranked 32 out of 178 countries.¹ Frequent calamitous cyclones and floods makes Bangladesh one of the most disaster prone countries in the world. According to the World Risk Index, the country is the fifth highest disaster risk country in the world and second in Asia after Philippines.² Man-made disasters are also prevalent such as collapses of multi-story building, frequent fire in industries and drowning of water vessels in the river or sea have very high case fatalities. Recently, the country has also hit the international media scene with the situation in the Bay of Bengal and Andaman Sea involving migrants and refugees – Rohingya and others – from Bangladesh and Myanmar.

The last (11th) national election was held on 30 December 2018 where all the 39 registered political parties contested. The Bangladesh Awami League led the Grand Alliance and won a landslide victory by winning majority of the seats of 300 in the National Assembly and formed

¹ The Fund for Peace, 2015

² The 2016 World Risk Report, the United Nations University Institute for Environment and Human Security (UNU-EHS) 2016

the government. However, the main opposition alliance, Jatiya Oikya Front has rejected the election's results and not taken their oath as Members of Parliament (MPs) yet.

UNFPA's 9th Country Programme of Support to the Bangladesh

The United Nations Population Fund (UNFPA) has been working in partnership with the Government of the People's Republic of Bangladesh since 1974 through technical advisory services and financial support. So far, UNFPA has completed eight country programme cycles, while it is currently carrying out its 9th country programme, 2017- 2020 (9th CP).

Country Programme is linked to UNDAF Action Plan (2017-2020) and contributing to all three UNDAF Outcomes (Outcome 1: All people have equal rights, access and opportunities; Outcome; 2: Sustainable and resilient environment; and Outcome 3: Inclusive and shared economic growth).

The 9th CP aims to contribute to effective implementation of international instruments and commitments in Bangladesh. The strategic priority areas of the programme are aligned with the 2030 Agenda and the Sustainable Development Goals. At the same time, it seeks to address the unfinished agenda of the International Conference on Population and Development, and is guided by the Convention for the Elimination of All Forms of Discrimination Against Women, the Convention on the Rights of the Child, the Beijing Platform for Action, the Declaration on the Elimination of Violence against Women, the Government's five-year plan, 2016-2020, the plan of action of the National Women's Advancement Policy 2011, Family Planning 2020, and the United Nations Development Assistance Framework (UNDAF), 2017-2020 and is directly contributing to the achievement of results under the national priorities on education, health, gender and equality of the 7th Five Year Plan of the Government of Bangladesh, as stated in the following programme outcomes:

Outcome 1: Sexual and reproductive health and rights- Increased availability and use of integrated sexual and reproductive health services, including family planning, maternal health and HIV, that are gender-responsive and meet human rights standards for quality of care and equity in access.

Outcome 2: Adolescents and youth - Increased priority on adolescents, especially on very young adolescent girls, in national development policies and programmes, particularly increased availability of comprehensive sexuality education and sexual and reproductive health.

Outcome 3: Gender equality and women's empowerment - Advanced gender equality, women's and girls' empowerment, and reproductive rights, including for the most vulnerable and marginalized women, adolescents and youth.

Outcome 4: Population dynamics - Strengthened national policies and international development agendas through integration of evidence-based analysis on population dynamics

and their links to sustainable development, sexual and reproductive health and reproductive rights, HIV and gender equality.

The programme underscores the spirit of reaching those most left behind, including migrants, refugees, ethnic, religious and other minorities, tea garden workers, adolescent girls, and people living with or at higher risk of HIV. A careful geographic mapping exercise was conducted to select key target districts for its downstream implementation work where a large proportion of vulnerable population groups reside; while focusing on upstream advocacy for transformative policy and budgeting.

The results and resource framework (RRF) of the 9th CP clearly identified the outcomes and outputs with relevant indicators and resource requirements. The 9th CP set the target of a total of US\$ 52.6 million (US\$ 26.3 million from the Regular Resources and US\$ 26.3 million to be mobilized from Other Resources) over the 4 years of 2017-2020. Although there is a significant decrease of UNFPA's regular resources in the past 3 years, UNFPA has been able to mobilize more resources from local development partners that has exceeded the 52.6 million USD committed in CPD.

The Country Programme Action Plan (CPAP) 2017-2020, developed based on the programme vision as stated in the Ninth Country Programme Document and in close consultation with key stakeholders, is an operation plan, which will guide UNFPA and Implementing Partners in programme planning, implementation, monitoring, reporting and resource mobilization processes.

UNFPA is programming in 19 underserved districts out of 64 districts in Bangladesh. SRHR component is programming in all 19 target districts, whereas Gender component in five districts and Adolescent and Youth component in 10 districts. There have been many interventions which are national in scope, e.g., advocacy, contraceptive security and the SWAp, campaign on GBV, standardization of life skills education etc. The district level programme interventions are being coordinated through the ten district offices; UNFPA has introduced local level planning as well to promote national ownership and capacity development for planning and budgeting and monitoring at the local level.

The programme is nationally executed with the Government, in close partnership with other United Nations agencies and non-government organizations. 14 government implementing partners (ministries/departments/academic institution), twenty five NGOs are carrying out the activities to achieve the above outputs and contributing to the outcomes. The Economic Relations Division (ERD) of the Ministry of Finance is the overall coordinating agency for the UN agencies, including UNFPA's 9th Country programme.

In addition to the country programme, UNFPA Bangladesh has three joint programmes during the period (two with UNICEF and one with WHO), such as Improving sexual, reproductive health and rights including maternal and newborn health in Bangladesh (funded by GAC) is

being implemented in five target districts, Global Programme to Accelerate Action to End Child Marriage in two target districts, and Better Health in Bangladesh: Technical Assistance for Strengthening Health Systems (funded by DFID) in 20 districts including 10 CP9 target districts. In addition, CO has four multi-bilateral projects implemented with government and non-government Implementing Partners (Generation Breakthrough funded by the Kingdom of the Netherlands, Strengthening Midwifery-led Continuum of Care in Bangladesh (2017-2021), funded by Sida, ASTHA: Strengthening Access to Multi-sectoral Public Services for GBV Survivors in Bangladesh (November 2017 - December 2021) funded by the Kingdom of the Netherlands, and Strengthening Sexual and Reproductive Health and Rights and Gender-Based Violence Services in Cox's Bazar (March 2019- March 2021), funded by DFATD) All these projects have contributed to the country programme.

The 9th Country Programme is currently on its third year of its 4-year cycle. The programme implementation suffered from a slow start in the first year and second year for some Government Implementing Partners, mainly due to the delay of approval process of TAPP (Technical Assistance Project Proposal) internally by the Government of Bangladesh which was necessary to initiate a UNFPA-supported project. The Country Programme thus needed to wait till 2018 for a smoother implementation to kick in, after all the necessary agreements were signed with the implementing partners. In addition, humanitarian response to several emergencies in 2017, including cyclone Mora, flood in northern districts of Bangladesh, landslide in Chittagong Hill Tract areas, and the Rohingya refugee response, created some delays in implementing the 9th Country Programme. UNFPA's response to Rohingya refugee response is continuing up to date, with host communities are being targeted for response and recovery in addition to refugees.

During the last two years of the 9th Country Programme, the Country Programme has focused mainly on strengthening technical and institutional capacities of government counterparts. Capacity development activities have been promoted, including development of national guidelines, strategies, protocols and training materials, conducting training and orientations in relevant reproductive health, population and development and gender issues; supporting knowledge translation, and implementation of evidence-based high quality sexual reproductive care, life skills education and adolescent friendly services, and Gender-based Violence (GBV).

3. OBJECTIVES AND SCOPE OF THE EVALUATION

The objectives of the independent evaluation of the UNFPA 9th country programme for Bangladesh are:

- to provide an independent assessment of the relevance and progress towards the expected outputs and outcomes set forth in the results framework of the 9th country programme;

- to provide an analysis of how UNFPA has positioned itself within the development community and national partners with a view to adding value to the country's development results;
- to draw key lessons from past and current cooperation and provide a set of clear and forward-looking options leading to strategic and actionable recommendations for the 10th country programme (2021-2025);
- to assess UNFPA's comparative advantage in the four programme areas in both development and humanitarian settings.

The evaluation will cover the time period 2017-2019; and will include all activities planned and/or implemented at a national level and in 19 target districts during this period within each programme component (sexual reproductive health and rights, adolescents and youth, gender equality and women's empowerment and population dynamics). Besides the assessment of the intended effects of the programme, the evaluation also will identify unintended effects.

4. EVALUATION CRITERIA AND PRELIMINARY EVALUATION QUESTIONS

In accordance with the methodology for CPEs as set out in the UNFPA Evaluation Handbook (2019)³, the evaluation will be based on a number of evaluation questions (limited to a maximum of eight) covering the following OECD DAC and other UNFPA-specific evaluation criteria.

Relevance

- To what extent was the UNFPA country programme able to (i) address the various needs of the population, including vulnerable and marginalized groups, (ii) align with government priorities; and (iii) respond to changes in the national development and humanitarian contexts during its period of implementation?
- What are the main comparative advantages of UNFPA in Bangladesh particularly in relation to other organizations operating in the country and how well were these utilized to achieve the results?

Effectiveness

- To what extent have the expected outputs of the 9th country programme been achieved in the development and humanitarian contexts? And to what extent have these outputs contributed to the achievements of the outcomes of the 9th country programme?
- To what extent has UNFPA contributed to improved humanitarian preparedness in Bangladesh in the area of SRHR, including maternal health, and of GBV?

³ <https://www.unfpa.org/EvaluationHandbook>

Efficiency

- To what extent has UNFPA made good use of its human, financial and administrative resources, and used an appropriate combination of tools and to demonstrate accountability to stakeholders and pursue the achievement of the outcomes defined in the 9th country programme in a timely manner?

Sustainability

- To what extent has UNFPA been able to support implementing partners and beneficiaries (rights-holders), in developing capacities and establishing mechanisms to address the challenges to ensure ownership and the durability of effects?
- To what extent has the CO established, maintained and leveraged different types of partnerships to utilize UNFPA's comparative strength to achieve the outputs and outcomes of the 9th country programme

Coordination

- To what extent did the UNFPA country office contribute to the good functioning of coordination mechanisms and to an adequate division of tasks (i.e. avoiding overlap and duplication of activities / seeking synergies) within the United Nations system?
- To what extent does the UNDAF fully reflect the interests, priorities and mandate of UNFPA in the country? Have any UNDAF outputs or outcomes which clearly belong to the UNFPA mandate not been attributed to UNFPA?

Coverage and Connectedness (Humanitarian Response)

- To what extent did UNFPA contribute to humanitarian response coordination?
- To what extent are UNFPA interventions and approaches to addressing SRHR, GBV and harmful practices in humanitarian settings in line with the principles of coverage, coherence and connectedness?

The generic questions listed above are only indicative; the final set of evaluation questions will be determined during the design phase, after a discussion with the evaluation reference group and key stakeholders.

5. METHODOLOGY AND APPROACH

Evaluation Approach

The Evaluation will utilize a mixed method approach, using qualitative and quantitative methods as necessary. The theory of change used to design the 9th Country Programme Action Plan will

be reviewed and revised as necessary, based on stakeholder consultations to provide the basis for this evaluation.

The evaluation will pay special attention to ensure equity, gender and human rights based approaches are embedded into the data collection and analysis. It will be also guided by the UNEG ethical guidelines for evaluation, as well as UNEG Norms and Standards. The evaluation will be transparent, inclusive and participatory as well as gender and human rights responsive. It will seek and utilize data disaggregated by age, gender, vulnerable groups, etc. to ensure findings are gender reflective and targeted.

Sampling Strategy

The team will identify suitable sampling strategy to select, interventions to scrutinize, field visits as well as stakeholders to interview. Sampled sites and stakeholders should reflect the full range of interventions under CP9 in terms of themes and contexts (development programming and humanitarian response) across priority geographic areas of work as well as target groups.

Data Collection

Primary data will be collected at the national and sub-national levels through semi-structured interviews, focus group discussions and direct observation during field site visits as appropriate.

Secondary data will be collected through desk review of existing literature (evaluations, research and assessments conducted by CO and other partners in the country), annual reviews/progress reports, and other monitored data.

Validation mechanisms

The Evaluation Team will use a variety of methods to ensure the validity of the data collected, including systematic triangulation of data sources and data collection. Further, the team will validate findings with key stakeholders and ensure that there are no factual or interpretive errors or missing evidence that could materially change findings.

Stakeholder participation

An inclusive approach, involving a broad range of partners and stakeholders, will be taken. Communication with stakeholders with respect to its purpose, the criteria applied, and the intended use of the findings will be ensured at all stages of the evaluation. The evaluation team will perform a stakeholder mapping in order to identify both UNFPA direct and indirect partners (i.e. partners who do not work directly with UNFPA and yet play a key role in a relevant outcome or thematic area in the national context). These stakeholders include representatives from the Government, civil-society organizations, the private-sector, sister UN organizations, other multilateral organizations, bilateral donors, and most importantly, the beneficiaries of the programme. Every effort will be made to include key stakeholders as part of the evaluation process either as sources of data (primary/secondary) or through their representation in the ERG.

Evaluation audience

Findings, lessons learned and recommendations of the CPE shall be used to assess the achievements of the 9th CP and to inform the development of the 10th Country Program. For transparency and accountability purposes, the CPE report shall be communicated to all stakeholders including UNFPA corporate managers and the Executive Board, national and district level partners, government, civil society organizations and donors.

6. EVALUATION PROCESS

The evaluation will unfold in five phases, each of them including several steps.

1) Preparation phase

This phase will include:

- Drafting the evaluation Terms of Reference;
- Approval of the ToR by IEO;
- Recruitment of a team of evaluators;
- Set up the Evaluation Reference Group;
- Orientation of key national government counterparts to the evaluation process.

2) Design phase

This phase will include:

- Conduct *desk review* of all relevant documents available at UNFPA headquarters, regional office and country office levels regarding the country programme for the period under assessment: 2017-2019;
- Develop a *stakeholder map* – The evaluation team will prepare a map of stakeholders relevant to the evaluation and strength of relationship to programme. The mapping exercise will include state, civil-society stakeholders and other development actors including, sister UN agencies and bilateral donors;
- Reconstruct the programme Theory of Change (TOC) – revisit the existing TOC that links planned activities to the intended results of the programme;
- Develop the evaluation matrix – finalize the evaluation questions, identify related assumptions and indicators to be assessed, and data sources (see CPE Handbook);
- Develop a data collection and analysis strategy as well as a concrete work plan for the field phase, including division of labor;
- Specify limitations and challenges expected to conduct the evaluation and any mitigation efforts to be taken to overcome these.
- Share with ERG for review, discussion and finalization of the report addressing all comments received.
- Clearance of the design report by the Regional M&E Advisor and CO Approval of the design report.

At the end of the design phase, the evaluation team will produce a **design report**, displaying the results of the above-listed steps and tasks.

3) Field phase

The evaluation team will collect data involving series of individual and group interviews, focus group discussions and field visits to answer the evaluation questions identified in the design phase.

Four weeks will be allocated to this exercise.

At the end of the field phase, the evaluation team will provide the CO with a debriefing presentation on the preliminary findings of the evaluation.

4) Reporting phase

During this phase, the evaluation team will continue the analytical work initiated during the field phase and prepare a first draft of the final evaluation report, taking into account comments made by the CO at the field phase debriefing meeting. This **first draft final report** will be submitted to the evaluation reference group for comments (in writing). The evaluation team will submit a **second draft** of the report addressing the comments made by the reference group.

This second draft report will form the basis for an **in-country dissemination workshop**, which will be attended by the CO as well as all the key programme stakeholders (including key national counterparts). The **final report** will be drafted taking into account comments received from the participants of the workshop.

The Report will be cleared by the CO and submitted with an EQA to the Regional M&E Advisor for **approval**. The quality of the report will be assessed based on the criteria set out in the CPE Guidance (see Annex 6 for details). Once approved, the Regional M&E Advisor will submit EQA (along with the Report) to IEO for validation and finalization of the quality assessment of the CPE.

5) Facilitation of use and dissemination phase

This phase will include:

- Publishing and dissemination of the final evaluation report to key stakeholders including government partners, implementing partners, development partners including bilateral donors, sister UN agencies, relevant civil society/academic institutions, UNFPA (APRO, and HQ -IEO, and Programme and Technical Division);
- Preparation of the management response to the recommendations
- Periodic follow-up of the recommendations of the evaluation.

7. EXPECTED OUTPUTS

The evaluation team will produce the following deliverables:

TERMS OF REFERENCE – BANGLADESH INDEPENDENT CPE (2019)

- an approved design report including (as a minimum): a) a stakeholder map ; b) the evaluation matrix (including the final list of evaluation questions and the corresponding judgement criteria and indicators) ; c) the overall evaluation design and methodology, with a detailed description of the data collection plan for the field phase;
- a debriefing presentation document (*Power Point*) synthesizing the main preliminary findings, conclusions and recommendations of the evaluation, to be presented and discussed with the CO during the debriefing meeting foreseen at the end of the field phase;
- a draft final evaluation report (potentially followed by a second draft, taking into account potential comments from the evaluation reference group and UNFPA);
- a power point presentation of the results of the evaluation for the in-country stakeholder workshop;
- an approved final evaluation report, with annexes, based on comments expressed during the in-country stakeholder workshop.
- an evaluation brief, a 2-3 page summary of the key evaluation findings, conclusions and recommendations.

All deliverables will be in *English*.

8. WORK PLAN AND INDICATIVE TIME SCHEDULE OF DELIVERABLES

Phases/deliverables	Dates
1. Preparatory phase	
drafting of the evaluation Terms of Reference	April 10, 2019
constitution of an evaluation reference group (ERG)	April 18, 2019
review of the TOR by the ERG	April 25, 2019
orientation of UNFPA main national partners to the evaluation process	April 30, 2019
approval of the ToR by APRO and EO	May6, 2019
selection and recruitment of a team of evaluators;	May 8, 2019
approval of the Team by IEO	May 15, 2019
2. Design phase	
Draft design report	May 31, 2019
Final design report	June 17, 2019
3. Field phase	June 18 - July 9, 2019
4. Synthesis phase	
1st draft final report	Aug 7, 2019
2nd draft final report	August 28, 2019

TERMS OF REFERENCE – BANGLADESH INDEPENDENT CPE (2019)

Stakeholder workshop (a half-day meeting in Dhaka), the exact day to be confirmed	September 19, 2019
Final report, Evaluation Brief, (and EQA by the CO)	Oct 03, 2019
5. Dissemination and follow-up phase	
Dissemination of the report within the CO and finalizing Management response	October 17, 2019
Integration of recommendations into the new CPD	December 30, 2019

9. COMPOSITION OF THE EVALUATION TEAM

Qualifications of the evaluation team members:

1. The Evaluation Team Leader will be an international expert in monitoring and evaluation of development programmes with:

- Advanced degree in evaluation, development studies, public health, population and gender studies or any other social science studies
- At least 10 years’ proven experience in conducting evaluations in the field of development for UN organizations or other international organizations
- Experience in leading complex programme and/or country level evaluations
- Experience in the South Asia region and preferably in Bangladesh
- Strong technical and analytical capacities and demonstrated knowledge of evaluation methods and techniques for data collection and analysis, an understanding of UNFPA mandate or the ICPD agenda
- Familiarity with the humanitarian-development nexus is desirable
- Excellent leadership, communication ability and excellent writing skills in English
- Expertise in humanitarian programming and vulnerable contexts
- Familiarity with UNFPA or UN
- Ability to lead a diverse team

The Team Leader will be responsible for:

- Providing overall leadership on the independent evaluation of the UNFPA CPE based on inputs and insights from the other consultants in the evaluation team;
- Covering at least one component (Population and Development, Coordination) of the CPE;
- Supervising and coordinating the work of evaluation team members and responsible for the quality assurance of all evaluation deliverables
- Developing the design report including the evaluation matrix and the work plan;
- Collecting information, conducting desk reviews of relevant documents and interviews with key stakeholders;

- Compiling the first comprehensive draft of the evaluation report, addressing the comments from ERG to produce the 2nd draft and final evaluation report in line with UNFPA evaluation quality standards;
- Ensuring that all the evaluation team members selected to work under his/her supervision are fully briefed about the whole evaluation process, objectives, methodology framework, evaluation tools, ethical standards, and key milestones/deliverables.

2. Evaluator (SRHR) will be an international consultant who fulfils the following criteria:

- Master's Degree in health sciences, including public health;
- At least 10 years of previous experience in conducting complex evaluations, especially in the field of development aid for UN agencies and/or other international organizations evaluations;
- Specialization and significant experience in the area of sexual reproductive health and rights;
- Significant experience in and/or knowledge of humanitarian settings and fragile contexts;
- Familiarity with UN and/or UNFPA mandate and activities;
- Excellent management skills and ability to work with multi-disciplinary and multi-cultural teams;
- Excellent analytical, communication and writing skills;
- Fluency in English is required.

The Evaluator (SRHR) will be responsible for:

- Covering the SRHR, including Adolescent SRHR, component of the CPE, including under humanitarian contexts;
- Developing the SRHR part of the design report including the evaluation matrix;
- Collecting information, conducting desk reviews of relevant documents and interviews with key stakeholders in the respective area;
- Draft the SRHR part of the 1st and 2nd drafts and the final evaluation report that meets all of UNFPA's evaluation quality standards;

3. An Evaluator (Adolescents and Youth) will be a national consultant who meets the following criteria:

- Master's Degree in social sciences, including population and gender studies, public health, psychology and other relevant fields;
- At least 7 years of experience in managing complex development programmes and conducting evaluations, especially in the field of development aid for UN agencies and/or other international organizations evaluations;

TERMS OF REFERENCE – BANGLADESH INDEPENDENT CPE (2019)

- Specialization and/or significant experience in adolescents and youth development, including life skills education/comprehensive sexuality education, sexual and reproductive health and rights, and prevention of child marriage);
- Significant knowledge and experience of complex evaluations in the field of development aid for UN agencies and/or other international organizations;
- Significant experience in and/or knowledge of humanitarian settings and fragile contexts;
- Familiarity with UN and/or UNFPA mandate and activities;
- Strong interpersonal skills and ability to work in a multi-cultural team;
- Excellent analytical, communication and writing skills;
- Fluency in English is required.

The Evaluator (Adolescents and Youth) will be responsible for:

- Covering the A&Y component of the CPE, focusing on life skills education (LSE), with linkages to ASRHR and GBV programmes, including under humanitarian contexts;
- Developing the A&Y part of the design report including the evaluation matrix;
- Collecting information, conducting desk reviews of relevant documents and interviews with key stakeholders in the respective area;
- Draft the A&Y part (LSE) and provide inputs on ASRHR and child marriage related parts of the 1st and 2nd drafts and the final evaluation report that meets all of UNFPA's evaluation quality standards;

4. An Evaluator (Women's Empowerment and Gender Equality) will be a national consultant who meets the following criteria:

- Master's Degree in social sciences, including population and gender studies, and other relevant fields;
- At least 10 years of experience in conducting complex evaluations, especially in the field of development aid for UN agencies and/or other international organizations evaluations;
- Specialization and/or significant experience in gender, especially in Gender-Based Violence and harmful practices (e.g. child marriage);
- Significant knowledge and experience of complex evaluations in the field of development aid for UN agencies and/or other international organizations;
- Significant experience in and/or knowledge of humanitarian settings and fragile contexts;
- Familiarity with UN and/or UNFPA mandate and activities;
- Strong interpersonal skills and ability to work in a multi-cultural team;
- Excellent analytical, communication and writing skills;
- Fluency in English is required.

The Evaluator (Gender) will be responsible for

TERMS OF REFERENCE – BANGLADESH INDEPENDENT CPE (2019)

- Covering the Gender component of the CPE, focusing on gender quality and women's empowerment, with linkages to gender-based violence and harmful practices (i.e. child marriage), including under humanitarian contexts;
- Developing the Gender part of the design report including the evaluation matrix;
- Collecting information, conducting desk reviews of relevant documents and interviews with key stakeholders in the respective area;
- Draft the Gender part (Gender equality and women's empowerment) and provide inputs on GBV and child marriage related parts of the 1st and 2nd drafts and the final evaluation report that meets all of UNFPA's evaluation quality standards;

5. An **Interpreter/Assistant** will be a national consultant who meets the following requirements:

- Bachelor's degree in social sciences, business administration or any other relevant areas;
- At least 4 years of experience in interpretation/translation in the development field;
- Profound knowledge of English and skills of written and oral translation to and from Bangla language;
- Experience with results based programme management terminology in English and Bangla languages;
- Relevant knowledge and experiences in national development context;
- Experience in administrative support.

Interpreter/Assistant will be responsible for:

- Assist the team leader with interpretation during the field phase for conducting group/individual meetings and focus group discussions with beneficiaries
- Assist with translation of written documents.
- Assist the evaluation team with general administrative/logistic work, including scheduling meetings, interviews;
- Organize evaluation team meetings as guided by the evaluation team leader when required.

Repartition of workdays among the evaluation team will be the following:

- 70 (seventy) working days for Team Leader;
- 60 (sixty) working days for Evaluator (SRHR);
- 40 (forty) working days for Evaluator (Adolescents & Youth);
- 60 (fifty) working days for Evaluator (Women's Empowerment and Gender Equality);
- 40 (forty) working days for Interpreter/Assistant

Payment of fees will be based on the delivery of outputs, as follows:

- Upon receipt of the approved design report: 20%

TERMS OF REFERENCE – BANGLADESH INDEPENDENT CPE (2019)

- Upon completion of the field phase 20%
- Upon receipt of the second draft evaluation report: 20%
- Upon receipt of the approved final evaluation report and evaluation brief: 40%

Daily Subsistence Allowance (DSA) will be paid per nights spent at the place of the mission following UNFPA DSA standard rates. Travel costs will be settled separately from the consultant fees.

10. MANAGEMENT OF EVALUATION

The **evaluation team** will consist of the evaluation manager and the evaluation team members. In the following, the roles and responsibilities of each position are specified:

- **A team leader** (international consultant) with overall responsibility for the evaluation process including the production of the final report. S/he will lead and coordinate the work of the evaluation team and will also be responsible for the quality assurance of all evaluation deliverables. In addition, the Team Leader will be responsible for the data collection and analysis work of the Population and Development component. She/he will be responsible for putting together the design report, the draft final and the final evaluation reports based on inputs from other evaluation team members.
- **A team member** (international consultant), who will provide expertise in the areas of sexual reproductive health and rights). She/he will take part in the data collection and analysis work during the design and field phases. She/he will be responsible for drafting key parts of the design report and of the draft final and final evaluation reports, including (but not limited to) SRHR and ASRHR sections relating to her/his area of expertise.
- **Two team members** (national consultants), who will each provide expertise in: 1) Gender Equality and Women’s Empowerment, and 2) Adolescents and Youth. Each evaluator will take part in the data collection and analysis work during the design and field phases. Each evaluator will be responsible for drafting key parts of the design report and of the draft final and final evaluation reports, including (but not limited to) sections relating to her/his area of expertise.
- The team might be assisted by a translator/interpreter, according to its needs.

The work of the evaluation team will be guided by the Norms and Standards established by the United Nations Evaluation Group (UNEG). Team members will adhere to the Ethical Guidelines for Evaluators in the UN system and the Code of Conduct, also established by UNEG. The evaluators will be requested to sign the Code of Conduct prior to engaging in the evaluation exercise.

The manager of the evaluation will be assisted by an **Evaluation Reference Group** (ERG) composed of the following members:

TERMS OF REFERENCE – BANGLADESH INDEPENDENT CPE (2019)

- Deputy Secretary, Economic Relations Department, Ministry of Finance
- Deputy Chief (Health), Ministry of Health and Family Welfare
- Chairman, Population Sciences Department of Dhaka University
- Deputy Inspector General and Project Director, Department of Inspection for Factories and Establishment, Ministry of Labour and Employment
- Head of Health, Plan International INGO
- UNFPA Asia Pacific Regional Office Monitoring and Evaluation Advisor
- UNFPA Bangladesh Deputy Representative
- UNFPA Bangladesh Monitoring and Evaluation Specialist (Coordinator)

The role of the reference group will be of a technical nature to provide constructive guidance and feedback on implementation and products of the evaluation, hence contributing to both the quality and compliance of this exercise. Its main tasks will be:

- Provide input to the CPE ToR;
- Provide comments on the design report, including fine-tuning of the evaluation questions;
- Facilitate access of evaluation team to information sources (documents and interviewees) to support data collection;
- Provide comments on the main deliverables of the evaluation including the draft and final CPE report.

The Coordinator and the reference group members will communicate mostly via e-mail, although face-to-face and “virtual” meetings (via tele or videoconference) may also be convened.

A CO evaluation manager (Monitoring and Evaluation Specialist) will be assigned to interact on a day-to-day basis with the evaluation team and who, together with the M&E National Programme Officer and the evaluation reference group, will ensure that all the necessary aspects of CP evaluation are well taken into account by the evaluation team.

The evaluation manager under the supervision of the Representative and in close collaboration with Deputy Representative, will manage the overall evaluation, and will carry out the following functions:

- To ensure consistency throughout the evaluation process (from ToR to dissemination of results and follow-up of recommendations) and assumes day-to-day responsibility for managing the evaluation;
- To coordinate the development of the ToR for the Country Programme Evaluation, with support from APRO and EO;
- To correspond with the reference group members at strategic points throughout the evaluation;
- To provide/facilitate the provision of documents and other resources available in the country office;

TERMS OF REFERENCE – BANGLADESH INDEPENDENT CPE (2019)

- To support the evaluation team in the development of the inception report;
- To support all phases of the evaluation and assesses the quality of related deliverables (inception report, draft and final evaluation reports)
- To be the first point of contact and bridge the communication between CO staff, senior management, APRO, EO and evaluation team throughout the evaluation.

APRO M&E Advisor: Will be responsible for Clearing the ToR for IEO approval, and approving the design report and the final evaluation report.

IEO: Will be responsible for approving the ToR, the evaluation team, and providing the final EQA

12. ANNEXES

ANNEX 1: UNEG/ UNFPA Ethical Code of Conduct for Evaluations

Evaluations of UNFPA-supported activities need to be independent, impartial and rigorous. Each evaluation should clearly contribute to learning and accountability. Hence evaluators must have personal and professional integrity and be guided by propriety in the conduct of their business

Evaluation Team /Evaluators:

1. To avoid **conflict of interest** and undue pressure, evaluators need to be **independent**, implying that members of an evaluation team must not have been directly responsible for the policy/programming-setting, design, or overall management of the subject of evaluation, nor expect to be in the near future.

Evaluators must have no vested interest and have the full freedom to conduct impartially their evaluative work, without potential negative effects on their career development. They must be able to express their opinion in a free manner.

2. Should protect the anonymity and **confidentiality of individual informants**. They should provide maximum notice, minimize demands on time, and: respect people's right not to engage. Evaluators must respect people's right to provide information in confidence, and must ensure that sensitive information cannot be traced to its source. Evaluators are **not expected to evaluate individuals**, and must balance an evaluation of management functions with this general principle.
3. Evaluations sometimes uncover evidence of wrongdoing. Such cases must be reported discreetly to the appropriate investigative body.
4. Should be **sensitive to beliefs, manners and customs** and act with integrity and honesty in their relations with all stakeholders. In line with the UN Universal Declaration of Human Rights, evaluators must be sensitive to and **address issues of discrimination and gender equality**. They should avoid offending the dignity and self-respect of those persons with whom they come in contact in the course of the evaluation. Knowing that evaluation might negatively affect the interests of some stakeholders, evaluators should conduct the evaluation and communicate its purpose and results in a way that clearly respects the stakeholders' dignity and self-worth.
5. They are responsible for the clear, accurate and fair written and/or oral presentation of study limitations, evidence based findings, conclusions and recommendations.

For details on the ethics and independence in evaluation, please see UNEG Ethical Guidelines and Norms for Evaluation in the UN System

Overall comments: [insert text]

Assessment Levels

Very good:	strong, above average, best practice	Good:	satisfactory, respectable	Fair:	with some weaknesses, still acceptable	Unsatisfactory:	weak, does not meet minimal quality standards
-------------------	--------------------------------------	--------------	---------------------------	--------------	--	------------------------	---

Quality Assessment Criteria		<i>Insert assessment level followed by main comments. (use 'shading' function to give cells corresponding colour)</i>					
1. Structure and Clarity of Reporting		Assessment Level:					

TERMS OF REFERENCE – BANGLADESH INDEPENDENT CPE (2019)

<p><i>To ensure the report is comprehensive and user-friendly</i></p> <ul style="list-style-type: none"> • Is the report easy to read and understand (i.e. written in an accessible non-technical language appropriate for the intended audience)? • Is the report focused and to the point (e.g. not too lengthy)? • Is the report structured in a logical way? Is there a clear distinction made between analysis/findings, conclusions, recommendations and lessons learned (where applicable)? • Do the annexes contain – at a minimum – the ToRs; a bibliography, a list of interviewees, the evaluation matrix and methodological tools used (e.g. interview guides; focus group notes, outline of surveys)? <p><i>Executive summary</i></p> <ul style="list-style-type: none"> • Is an executive summary included in the report, written as a stand-alone section and presenting the main results of the evaluation? • Is there a clear structure of the executive summary, (i.e. i) Purpose, including intended audience(s); ii) Objectives and brief description of intervention; iii) Methodology; iv) Main conclusions; v) Recommendations)? • Is the executive summary reasonably concise (e.g. with a maximum length of 5-10 pages)? 	<p>Comment:</p>
<p>2. Design and Methodology</p>	<p>Assessment Level:</p>

TERMS OF REFERENCE – BANGLADESH INDEPENDENT CPE (2019)

<p><i>To ensure that the evaluation is put within its context</i></p> <ul style="list-style-type: none"> • Does the evaluation describe whether the evaluation is for accountability and/or learning purposes? • Does the evaluation describe the target audience for the evaluation? • Is the development and institutional context of the evaluation clearly described? • Does the evaluation report describe the reconstruction of the intervention logic and/or theory of change? • Does the evaluation explain any constraints and/or general limitations? <p><i>To ensure a rigorous design and methodology</i></p> <ul style="list-style-type: none"> • Is the evaluation approach and framework clearly described? Does it establish the evaluation questions, assumptions, indicators, data sources and methods for data collection? • Were the methods chosen appropriate for addressing the evaluation questions? Are the tools for data collection described and justified? • Is the methods for analysis clearly described? • Are methodological limitations acknowledged and their impact on the evaluation described? (Does it discuss how any bias has been overcome?) • Is the sampling strategy described? Does the design include validation techniques? • Is there evidence of involvement of stakeholders in the evaluation design? (Is there a comprehensive/credible stakeholder map?) • Does the methodology enable the collection and analysis of disaggregated data? • Is the design and methodology appropriate for assessing the cross-cutting issues (equity and vulnerability, gender equality and human rights)? 	<p>Comment:</p>
<p>3. Reliability of Data</p>	<p>Assessment Level:</p>

TERMS OF REFERENCE – BANGLADESH INDEPENDENT CPE (2019)

<p><i>To ensure quality of data and robust data collection processes</i></p> <ul style="list-style-type: none"> • Did the evaluation triangulate all data collected? • Did the evaluation clearly identify and make use of qualitative and quantitative data sources? • Did the evaluation make explicit any possible issues (bias, data gaps etc.) in primary and secondary data sources and if relevant, explained what was done to minimize such issues? I.e. did the evaluation make explicit possible limitations of the data collected? • Is there evidence that data has been collected with a sensitivity to issues of discrimination and other ethical considerations? • Is there adequate gender disaggregation of data? And if this has not been possible, is it explained? • Does the evaluation make explicit the level of involvement of different stakeholders in the different phases of the evaluation process? 	<p>Comment:</p>
<p>4. Analysis and Findings</p>	<p>Assessment Level:</p>

	<p>Comment:</p>	
<p>5. Conclusions</p> <p><i>To assess the validity of conclusions</i></p> <ul style="list-style-type: none"> • Are conclusions credible and clearly related to the findings? • Are the conclusions demonstrating an appropriate level of analytical abstraction? • Are conclusions conveying the evaluators' unbiased judgment of the intervention? 	<p>Assessment Level:</p>	
<p>6. Recommendations</p>	<p>Comment:</p>	
	<p>Assessment Level:</p>	

TERMS OF REFERENCE – BANGLADESH INDEPENDENT CPE (2019)

	Assessment Levels (*)			
Quality assessment criteria (scoring points*)	Very good	Good	Fair	Unsatisfactory
1. Structure and clarity of reporting, including executive summary (7)				7
2. Design and methodology (13)			13	
3. Reliability of data (11)			11	
4. Analysis and findings (40)			40	
5. Conclusions (11)		11		
6. Recommendations (11)		11		
7. Integration of gender (7)	7			
Total scoring points	7	22	63	7
Overall assessment level of evaluation report			Fair	
	Very good → very confident to use	Good → confident to use	Fair → use with caution	Unsatisfactory → not confident to use

(*) (a) Insert scoring points associated with criteria in corresponding column (e.g. - if 'finding and analysis' has been assessed as 'good', enter 40 into 'Good' column. (b) Assessment level with highest 'total scoring points' determines 'Overall assessment level of evaluation report'. Write corresponding assessment level in cell (e.g. 'Fair'). (c) Use 'shading' function to give cells corresponding colour.

If the overall assessment is 'Fair', please explain⁵:

- How it can be used?

⁵ The purpose here is to clarify in what way the report can be used. This in order to assist the elaboration of a relevant Management Response and the wider use of the evaluation findings back into programming. When a report has been assessed as Fair, it is obligatory to fill this text box in.

- What aspects to be cautious about?

Where relevant, please explain the overall assessment Very good, Good or Unsatisfactory⁶:

Consideration of significant constraints⁷

The quality of this evaluation report has been hampered by exceptionally difficult circumstances:

yes

no

If yes, please explain:

⁶ The purpose is, where relevant, to clarify for example severe unbalances in the report (for example, the report is good overall but recommendations very weak) Is optional to fill in.

⁷ E.g. this should only be used in case of significant events that has severely hampering the evaluation process like natural disasters, evaluators falling sick, unexpected significant travel restrictions, etc. More 'normal' limitations should be mentioned under relevant section above.

ANNEX 7: Management response template

UNFPA Management response	Country Programme Evaluations (from-to):(name of the country)
--	--

Note: The following management response lists the recommendations as they appear in the evaluation report. Please refer to the report for more details on each recommendation. Recommendations may be organized by clusters, e.g.: strategic recommendations, recommendations associated with the country programme, recommendations associated with cross-cutting issues. Within each cluster, recommendations should be ranked by priority levels (from 1 to 3).

Instructions for completing the management response:

1. Boxes in white to be completed upon receiving the present request
2. Boxes in grey to be completed one year later.

Cluster 1: Strategic recommendations				
Recommendation #	To (e.g Executive Director's Office)	Priority Level(from 1 to 3)

			Status (ongoing or completed)	Comments

ANNEX 8: United Nations-approved editing guidelines

Instructions for the preparation of documents

Length of reports

Reports originating in the Secretariat must not exceed 8,500 words in length (10,700 words for documents not originating in the Secretariat), including any footnotes, headings or hidden text. A waiver must be requested for reports that exceed the limit.

Format

Manuscripts should be transmitted for processing in electronic form. For technical specifications on format and media to be used in preparing documents at Headquarters, see the latest version of the DGACM guide to document submission.

For documents prepared at offices away from Headquarters, click on the links below:

United Nations Office at Geneva

United Nations Office at Nairobi

United Nations Office at Vienna

Main headings and subheadings should be in bold print. Initial capitals are used only for the first word and words normally capitalized. For more detailed instructions, see Format/Headings and subheadings and Mastheads and cover pages.

Italics and bold print are not used for emphasis, except where the General Assembly has requested the use of bold print for recommendations (see also Italics and bold print).

Revised texts

If a text is a revised version of a previously issued document (such as a draft resolution), or is the final version of a report already submitted in draft form for advance editing/translation, all changes, including deletions, must be clearly indicated by means of Microsoft Word track changes.

References and quotations

Manuscripts should not include lengthy quotations from texts previously circulated as United Nations documents, such as General Assembly resolutions and earlier reports of the Secretary-General, nor should such texts or excerpts therefrom be attached as annexes.

Internal cross-references should be carefully checked in the final draft, as the paragraph numbers may have changed from those in earlier drafts.

Necessary quotations and references should be carefully checked for accuracy. In the case of United Nations documents, paragraph numbers, not pages, should be cited.

For more detailed instructions, see Editorial guidelines/Style/Quotations.

Abbreviations and acronyms

Abbreviations and acronyms should always be explained. The full name should be spelled out the first time it occurs in the text, or a complete list should be provided.

Abbreviations and acronyms are not used for the names of Member States, most commissions, committees or other subsidiary bodies, major United Nations offices, Secretariat departments, or in document titles or internal headings.

Names of subsidiary bodies, major United Nations offices and Secretariat departments should be given in full the first time they occur in a text. Short titles (e.g. "the Council", "the Commission", "the Department") are used thereafter.

For a list of abbreviations and acronyms used in United Nations documents, see Editorial guidelines/Style/Abbreviations and acronyms.

Names

For geographical names, including countries, see UNTERM. If the location does not appear therein, the GeoNames database of the National Geospatial Intelligence Agency is a useful guide.

For individuals, corporations etc., verify correct names or most commonly used spellings or transliterations, and use consistently throughout.

When general terms such as president, representative and so on are used, it would be helpful to the translators to indicate the gender of the person.

When animal or plant species are mentioned, the scientific (Latin) designation should be included in addition to the common or vernacular name, as the latter may not provide sufficient information to allow an accurate translation.

Use of the first person

The first person may be used in reports of the Secretary-General.

Additional guidelines

For further guidelines on drafting and format, see Editorial guidelines/Basic documents and Format.

Country names and currencies

Country names and currencies are listed in the United Nations Multilingual Terminology Database (<http://untermportal.un.org>). To start your search, enter the name of the country in the “search” field. Under "subjects" on the left pane, click on "country names", then click on "view" beside the entry. Both the short and formal country names are given. The short form is used for most purposes in the United Nations. The formal name is generally used in legal texts, such as treaties.

The country name is normally given after the name of a city, unless the city is the capital.

Except in communications from Member States, country names should not be used in the possessive form: the population of the Sudan, not the Sudan's population

In communications from Member States issued as United Nations documents, the country designations used by the author of the communication are retained in the edited text, even if they are not consistent with established United Nations terminology. For further information, see "Communications from Member States" in Editorial guidelines/Policy questions.

In reports containing information from Member States that is reproduced as received, the designations used by the Member States are not changed and the following disclaimer is inserted as a footnote on the cover page of the report:

Note: The information provided by Member States has been reproduced as received. The designations employed do not imply the expression of any opinion whatsoever on the part of the United Nations Secretariat concerning the legal status of any country, territory or area, or of its authorities.

10. Dr. Mahbubur Rahman, Upazila Health and Family Planning Officer

11. Dr. Nazia Islam, Medical Officer
12. Dr. Rita Rani Pal, Senior Gynecologist
13. Suman Ray Chowdhury, Resident Medical Officer
14. Dr. Shafiqul Islam, Dental Surgeon
15. Dr. Moni Rani Talukdar, medical officer
16. Najmun Nahar, midwife
17. Rani Das, Senior Staff Nurse (certified midwife)
18. Moushumi Khatun, midwife
19. Khairul Alam, Nursing, in charge

Jagannathpur: Family Welfare Centre, Patli, Jagannathpur (10F, 9M)

1. Dr. Sheikh Md. Moniruzzaman, Medical Officer MCHFP, Jagannathpur Upazila
2. Ekramul Huq, Upazila Family Planning Officer, in charge
3. Rina Akhter, FWV (Family Welfare Visitor)
4. Dr. Faruk Ahmed, SACMO (Medical Assistant)
5. Sirajul Huq, Union Parishad Chairman
6. Abul Khair CHCP
7. Rafiqul Islam, Family Planning Inspector
8. Khaled Hassan, Union Parishad Member
9. Hasna Begum, Private CSBA
10. Selina Akhter, FWA
11. Nasima Begum, Private CSBA
12. Shapra Sharma, PPV
13. Rahena Begum, FWA
14. Protima Rani, Project Officer, Care Bangladesh
15. Mina Rani Sarker, FWA
16. Sanchita Dey, FWA
17. Manoj Kanti, Health Assistant,
18. Rashed Begum, PPV
19. Rubi Rani Gupta, Private CSBA

Jagannathpur Upazila Health Complex: (2 F, 4 M)

1. Dr. Madhushudhan Dhar, UH&FPO,
2. Dr. Sharmin Ara, Resident Medical Officer, Gynecologist
3. Saima Begum, Midwife
4. Dr. Tarekul Islam, Medical Officer
5. Dr. Nazmul Islam, Dental Surgeon
6. Dr. Md. Omar Faruq, Medical Officer (Junior Consultant, ENT)

Moulvibazar (11 F, 9 M)

1. Nargis Akhter, UNFPA supported Fistula Co-coordinator
2. Dr. Shapla Pinky Saha, Midwife mentor, Save the Children
3. Dr. Md. Shahjahan Kabir, Civil Surgeon, Moulvibazar
4. Dr. Partha Sarati Dutta, Superintendent, District Hospital (Deputy Director)
5. Dr. Farzana Huq, Junior Consultant, Gynecology
6. Dr. Ahmed Faisal Zaman, RMO in Charge
7. Rina Khatun, Intern, Midwife
8. Najma Begum, Senior Staff Nurse
9. Ranjana Rani Ray, Midwife, District Public Health
10. Selina Begum, Labor Ward, In –Charge
11. Ruma Rani Mridha, Staff Nurse
12. Monowara Begum, Senior Staff Nurse

13. Priyanka Shome, 3rd Year Student,
14. Kani Lashkar Rupa, FP Facilitator
15. Dr. Md. Abdul Mannan, Asst. Director (CC), District FPCST&QIT Consultant
16. Md. Ashil Ali, Heed Bangladesh, Moulvibazar Dstrict Coordinator
17. Monosri Deb, Technical Officer, Generation Breakthrough
18. Md. Mirazul Islam, Field Manager, generation Breakthrough (GB)
19. Abdul Ahad, Technical officer, GB
20. Nasima Akhter Nipa, Technical officer, GB

Day: 4, Sreemangal, July 3, 2019 (8 F, 3 M)

1. Dr. Md. Mohsin, RMO and Acting UH&FPO
2. Josna Begum, Nursing Supervisor
3. Dr. Makhleka Morshed, Pediatrics Consultant
4. Shammia Tabassum, Midwife
5. Moni Begom, Midwife
6. Tamanna Chowdhury, Midwife
7. Jhorna Rani Halder, Staff Nurse
8. Farhana Akhter, Staff nurse
9. Hasina Akhter Staff Nurse
10. Delwara Begom Nursing Instructor
11. Dr. Ranjan Chandra Das, MO, MCH-FP

Saatgaon: (4 females)

1. Anamika Pal, FWV
2. Radhika Kar, Ex Volunteer, CIPRB
3. Zaheda Akhter, UNFPA, Project Midwife
4. Sabrina Akhter, Diploma Midwife

Bangladesh Tea Labourers' Association (six males)

1. Pankaj Khanda, VP, Tea Labor Association
2. Bijoy Hajra, Organizing Secretary, Tea Labor Association
3. Paresh Kalindi, treasurer, Tea Labor Association
4. Ram Bhojon, General Secretary
5. Ranjan Singh, Member
6. Tumpa, CIPRB, garden volunteer

Gender Equality and Women's Empowerment (GEWE)

Gender Equality and Women's Empowerment (GEWE) Relevance

EQ 1. How is the CP able to address(i) the various needs of the population, including vulnerable and marginalized groups, (ii) align with government priorities and (iii) respond to changes in the national development and humanitarian contexts during its period of implementation				
EQ 2. To what extent does the UNDAF fully reflect the interests, priorities and mandate of UNFPA in the country?				
Assumptions to be assessed	clarification	Indicators	Sources of Information	Methods and tools for data collection
The needs of women especially from marginalized groups were taken into account in the CP	Who are the marginalized groups?	-Consultation process took place in developing Action Plan of CP -CP fulfils goals of 7 th FYP, SDGs Article 5 and 16, and UNDAF goal 1	-Proceedings of consultation preceding CP Action Plan -Annual Reports 2017,2018 -UNFPA Strategic Plan -Bangladesh CP documents -Gob 7 th Five Year Plan -SDGs	-Documentary analysis -Interviews with UNFPA CO Staff -Interviews with implementing national partners -interviews with other UN Agencies Staff
Strategies of CP were in line with government priorities and global agenda		-CP fulfils goals of NAP to Prevent Violence Against Women (2018 to 2030) -UNFP as global leader of GBV successfully translated thematic issue of GBV in development context (e.g. form parliamentary caucus on GBV and early marriage) as well as humanitarian context (GBV leader of ISCG)	-UNDAF Annual Results report -NAP to Prevent Violence Against Women (2018 to 2030)	
UNFP's comparative advantage in relation to other organizations were sufficiently used to respond to changes in development and humanitarian contexts and to achieve results				
The UNDAF incorporated UNFPA priority areas concerning to GE as stated in the CP9.		<ul style="list-style-type: none"> • CPAP is reflected well in UNDAF • CP is aligned with the 7th Five Year Plan SDGs and the UNDAF • AWP's and GE Targets reflect the commitment and needs of men, women, girls and boys in UNDAF 	<p>Secondary Data</p> <ul style="list-style-type: none"> ○ UNDAF and its annual results framework ○ UNFPA Strategic plan 2014-17 and 2018-21 ○ UNFPA CP9 CPD and CPAP 	<ul style="list-style-type: none"> ○ Desk Review ○ Semi-structured key informant interviews - UNFPA CO staff - GE programme staff, UNFPA - Implementing national

			<p>Primary Data</p> <ul style="list-style-type: none"> ○ Ministry of Women and Children's affairs ○ Government implementing partners ○ UNFPA Senior management & programme staff RC and UNCT leadership and staff 	partners
Gender Equality and Women's Empowerment (GEWE) Effectiveness				
EQ 3. How have the expected outputs of the 9 th country programme been achieved (i) in terms of Gender Equality and Women's Empowerment, (ii) to what extent have these contributed to the achievement of the outcomes of the 9 th CP, (iii) to what extent has UNFPA contributed to improved humanitarian preparedness in the area of SRHR/GBV?				
Assumptions to be assessed	Clarifications	Indicators	Sources of Information	Methods and tools for data collection
A national mechanism is operationalized to plan, coordinate and monitor strategies, policies and protocols to address GBV and harmful practices	What are the harmful practices in B'desh context?	<p>Improved policy and legal framework to prevent GBV: Costed National Action Plan RRF is in place</p> <p>Strengthened monitoring capacity of the national coordination body to monitor the implementation of NAP and relevant policies</p> <p>Strengthened capacity of labor inspectors and industrial police to advise on addressing GBV and SRHR at workplaces</p> <p>In-depth analyses of data on VAW/GBV are available to inform planning and decision making</p> <p>Increased awareness of decision makers to implement GBV and SRHR related recommendations of UPR and CEDAW</p>	<p>UNFPA-CPAP 2017 – 2020 progress of CPAP Indicators towards targets BDHS Survey</p> <p>NAP-VAW 2018-2030 progress reports from implementing partners</p> <p>Budget and Expenditure analysis</p> <p>Progress reports from implementing partners</p> <p>GoB Reports of UPR and CEDAW and NGO Shadow report</p>	<p>Desk Review</p> <p>Semi structured KI with GoB partners, CSOs, UNFPA staff</p> <p>Field Observations</p>

		GBV and harmful practices integrated into national in- and pre-service training by national training institutions	Relevant modules	
Information and services to address and prevent GBV and harmful practices has increased in both humanitarian and development spheres		Referral systems (multi-sectoral GBV response) functional at district levels Increased availability of women-friendly police services GBV cluster operationalized to coordinate GBV multi-sectoral prevention and response in humanitarian settings	Annual reports Periodic reports from the field -do-	Desk Review Semi structured KII with GOB partners, CSOs, UNFPA staff Field Observations
9 th CP has enabled humanitarian preparedness in SRHR/GBV areas	What does enabled mean?	Minimum Standards for prevention and response to GBV in Emergencies introduced and implemented Community protection mechanisms/NNPC for addressing GBV in humanitarian settings are strengthened	ISCG reports Periodic reports from the field	Desk Review Semi structured KII with GOB partners, CSOs, UNFPA staff Field Observations
9 th CPE has brought positive changes in gender norms including intolerance of GBVs in communities	What are positive gender norms? Norm change measure? How do you do it?	Advocacy and SBCC plan for GBV prevention developed and implemented Increased male engagement including youth in GBV prevention Faith based organizations are actively engaged in preventing GBV Community protection mechanisms/NNPC for addressing GBV in normal settings are strengthened Strengthened partnerships with CSOs and private sector for addressing GBV	Periodic reports from the field M& E reports by UNFPA	Desk Review Semi structured KII with GOB partners, CSOs, UNFPA staff Field Observations

Gender Equality and Women's Empowerment (GEWE) Efficiency

EQ 4. How has the UNFPA (i) made optimal use of its human, financial and administrative resources, (ii) used appropriate combination of tools, (iii) demonstrated accountability to achieve the outcomes of 9th CP in a timely manner

Assumptions to be assessed	Indicators	Sources of Information	Methods and tools for data collection
9 th CP has sufficient resources to implement activities	- Budget allocated	Budget and Expenditure Analysis	Desk work Interviews with Kils and IPs
9 th CP is adequately staffed with appropriate skills to implement activities	- Program operated with optimal staffing, - Vacancies filled in a prompt manner	Quarterly status reports SIS Annual reports	Desk Work Interviews with CO , Clusters, Implementing partners
9 th CP has used appropriate combination of tools to achieve outcomes in a timely manner	- Annual project calendar has been observed	Results Framework Progress of CPPAP Indicators towards Targets	Desk Work Interviews with CO , Clusters, Implementing partners
9 th CP demonstrated accountability to achieve its outcome	- Periodic reporting to Partners, Donors Observed	Partner communication, reports of coordination meetings	Desk Work Interviews with CO , Clusters, Implementing partners

Gender Equality and Women's Empowerment (GEWE) Sustainability

EQ 5. How has UNFPA been able to support implementing partners in supporting IPs and beneficiaries (i) in developing capacities, (ii) establishing mechanisms to address challenges to ensure ownership and durability of effects

Assumptions to be assessed	Indicators	Sources of Information	Methods and tools for data collection
Capacities of IPs are developed during project period so that implementation may continue after withdrawal of project	Measure of capacity Is it implementation or (no imple) required after sometime?	Capacity building relates to sustainability goals Work Plans of programmes	Desk work Interviews with IP and Cluster teams

CP has exit strategies in place	Evidence of clear exit strategies in plan Evidence of implementation plans in keeping with exit strategies	Work Plans of programmes	Desk work Interviews with IP and Cluster teams	
Component 2: Strategic Positioning (Coordination (plus coverage, coherence, connectedness)– Humanitarian Settings)				
For EQ 6, 7, and 8 GE followed the same matrix as in PD below where it was relevant and appropriate to GE, mainly GBV .				
Population and Development:				
Programme Component 1 (for Relevance, Effectiveness, Efficiency and Sustainability)				
Population and Development – Relevance				
<i>EQ 1: In what way(s) was the UNFPA country programme able to (i) address the various needs of the population, including vulnerable and marginalized groups, (ii) align with government priorities; and (iii) respond to changes in the national development and humanitarian contexts during its period of implementation?</i>				
Assumptions to be assessed	Indicators	Sources of information	Methods and tools for data collection	
<p>-The country programme incorporated the concerns and needs of the population, including the marginalized and vulnerable communities.</p> <p>-Their priorities are taken into account in the design and implementation of the UNFPA CP9 programme and incorporated in M&E of programme results.</p> <p>-The criteria for the selection of target groups and in the P&D interventions are included in the identified needs of the target groups (who benefits from the PD programme)</p>	<p>-Needs of the population, vulnerable groups and marginalized groups (such as adolescent girls, tea garden works, sex workers, youth, ethnic groups, disabled, rep age women living in remote areas etc.) are identified in SITAN and assessed as part of the <u>design process</u> of CP9.</p> <p>-The <u>implementation</u> of the programme is focused on reaching vulnerable groups including adolescent girls in marginalized communities/areas</p> <p>-<u>Monitoring and evaluation</u> system is geared towards the assessment of results for vulnerable groups, including disaggregation of data by sex, age and other vulnerability criteria</p> <p>-CP 9 is in line with the 7th Bangladesh National</p>	<p>Secondary Data</p> <p>-Situation analysis / vulnerability assessment conducted as part of the design of the programme interventions</p> <p>-UNFPA Bangladesh CP9 CPD and CPAP, COAR</p> <p>-CP9 Monitoring data and their disaggregation</p> <p>-Proceedings of the consultation process of CPD and CPAP development</p> <p>-Financial data</p> <p>Primary Data</p> <p>-P&D related stakeholders (government, parliamentarians, development partners (donors)</p> <p>-UNFPA staff (programme and finance)</p> <p>Secondary Data</p> <p>-National Policy & Strategy Documents on P&D,</p>	<p>Document Review</p> <p>key Informant interviews</p> <p>Semi-structured question guides</p>	
			Desk Review	
			-Semi-structured key	

<p>The country programme and its output and outcome level targets of P&D programme are in line with Government of Bangladesh strategies and plans , ICPD and 2030 Agenda</p>	<p>Development plan -CP 9 is in line with relevant Government strategies and policies regarding Population and Development -Documentation of dialogue with national and local partners ensuring that P&D objectives and strategies are consistent with priorities indicated in the national policy frameworks</p>	<p>Letters of Understanding with IPs, minutes of round table dialogues, -SDGs, 2030 Agenda, ICPD -P&D related publications –specifically funded and assisted by UNFPA) -GOB 7th Five Year Plan -Training evaluation reports Primary Data -P&D related stakeholders (government, parliamentarians, development partners (donors) -UNFPA staff</p>	<p>informant interviews</p>
<p>PD interventions have been able to respond to changes in national needs and priorities of in humanitarian crisis/ natural hazards</p>	<p>• CP 9 is in line with UNFPA strategic plans and guidelines for humanitarian support (specifically on Data & Analysis) • PD Outcome, Outputs and Interventions are in line with the CPAP and addressed the needs and priorities of the most vulnerable and marginalised communities including those humanitarian crisis/ natural hazards</p>	<p>Secondary Data -UNFPA Guideline on Humanitarian Support -UNFPA Strategic plan 2014-17 and 2018-21 -UNFPA CP9 CPD and CPAP -UNDAF Report, 2017 -Monitoring reports and evaluation reports Primary Data -Government implementing partners -UNFPA Humanitarian Programme staff -UNFPA PD staff</p>	<p>-Desk Review -Semi-structured key informant interviews</p>
<p>The country programme incorporated gender, equity and human rights dimensions into the CP design, implementation and monitoring in a way appropriate for the context of PD outcome priority areas and concerns relevant to Bangladesh</p>	<p>- Focus on women and girls as well as men and boys data collection and analysis - Disaggregated data (sex, age, and other vulnerability criteria appropriate in the context of Bangladesh) used to inform the design of the country programme, in particular the selection of the 19 focus districts at sub-national level - CP9 is in line with the gender and human rights perspective of UNFPA in the development context of Bangladesh as well as humanitarian context</p>	<p>Secondary Data -CPD, CPAP -Situation analysis (developed for programme design) -Gender analysis (developed for programme design) Primary Data -Ministry of Women and Children affairs, Department of Youth Development -GOB implementing partners -Other implementing partners -Development partners (donors) -UNFPA Senior management UNFPA APPRO selected staff members</p>	<p>o Desk Review o Semi-structured key informant interviews</p>

EQ 2. To what extent does the UNDAF fully reflect the interests, priorities and mandate of UNFPA in the country?			
UNDAF incorporated UNFPA priority areas of the four strategic outcomes	<ul style="list-style-type: none"> - UNFPA Bangladesh Country Strategy Plan, CPAP is reflected in UNDAF (synergy between UNDAF outcome areas and CPAP outcomes) -UNDAF includes UNFPA key interventions - Planned and actual implementation of UNDAF - M&E framework includes monitoring of UNFPA contribution to UNDAF 	Secondary Data <ul style="list-style-type: none"> -UNDAF and its annual results framework -UNFPA Strategic plan 2014-17 and 2018-21 - CPD and CPAP -M&E plans and framework -Minutes of M&E coordinating meetings Primary Data <ul style="list-style-type: none"> -UNFPA CO -UNFPA Senior management and M&E staff -RC and UNCT leadership and staff 	Document Review Semi-structured key informant interviews
Population & Development – Effectiveness			
EQ 3. To what extent have the expected outputs of the 9th country programme been achieved in the development and humanitarian contexts? To what extent have these outputs contributed to the achievements of the outcomes of the 9th country programme?			
Assumptions to be assessed	Indicators	Sources of information	Methods and tools for data collection
Related to output 4.1 [data & analysis]: UNFPA has contributed to improved and quality data availability and analyses on population, SRH, youth, GBV (and in the humanitarian context) Capacity of national institutes increased to provide disaggregated data in a timely and user-friendly manner Data produced are used to inform evidence-based planning All data are disaggregated (by Age and sex)	<ul style="list-style-type: none"> -Evidence of databases with population-based data that are accessible through web-based platforms, user friendly databases with UNFPA contribution (to facilitate mapping, of socio-economic inequalities and demog. disparities) baseline 2--target 7 - Evidence that national statistical authorities are producing evidence-based analyses on A&Y, SRH, GBV in development and humanitarian settings. - data providers equipped with skills to deliver gender and age sensitive SRHR information and services -Sustainability of national data collection and analysis -SDG and 7th FYP monitoring and reporting framework (by 2020) 	Secondary Data COARs, SPRs, UNFPA monitoring data ,REDATAM, related websites, PD publications, National level publications by BBS, GED, and Dhaka university. Districts: District level plans and data bases Primary Data <u>National Level:</u> UNFPA CO staff BAPPD (Bangladesh Parliament Secretariat) B'desh Bureau of Statistics (BBS) GED, Dhaka University, MoHFW	<ul style="list-style-type: none"> • Document analysis • Face-to-face semi-structured (group) interviews ○ Site observation

	<p>-Application of the same (above) in tracking results</p> <p>-Data disseminated data through REDATAM</p> <p>-Trained PD officers (from IPs) performance (reflected in reports, data sheets etc)</p>		
<p>Related to Output 4.2 [Policies & plans]: UNFPA-supported data and analysis on population, SRH, youth and GBV issues are being used in national and district-level policy making, planning and implementation.</p> <p>Related to sub-output 4.2.3</p> <p>Awareness of local level policy and decision makers at district level and below, and civil society on PD issues increased.</p>	<p>-Evidence that new national development and sectoral plans address PD, SRH, youth and GBV, with UNFPA contribution</p> <p>-Evidence that ministries implemented their annual work plans and budgets responding to population, A&Y, SRHR and GBV issues, with UNFPA contribution</p> <p>-Evidence that UNFPA-supported districts are using data from UNFPA-supported census and disaggregated national surveys in their annual plans</p> <p>-Evidence that districts have reported on key ICPD indicators in their annual reports using data and information from the district poverty monitoring and analysis system, with UNFPA contribution</p> <p>-Sustainability of policy making informed by population dynamics</p> <p>-Districts' satisfaction with availability of disaggregated data</p> <p>-Enhanced capacities of PD related staff in national agencies on data analysis and reporting in National as well as District offices</p> <p>-Number of parliament sessions where MPs addresses PD issues that are favourable to (S)RHR, GE and A&Y issues. (at least 3-5 times by 2020)</p> <p>-Number of national and sectoral plans and strategies that address issues of the ICPD agenda</p>	<p>Secondary Data</p> <p>-COARs, SPPs, UNFPA monitoring data, District profiles and Plans,</p> <p>Primary data</p> <p><u>National Level:</u></p> <p>-UNFPA CO staff, GED, MOHFW, BBS</p> <p>- University of Dhaka (Pop unit),</p> <p>-Ministry of Youth and Sports (MoYS) (re-Demog Dividend)</p> <p>Parliamentarians</p> <p><u>District Level:</u></p> <p>UNFPA field staff, Field Offices (field officers feedback), Civil society</p>	<ul style="list-style-type: none"> • Document analysis • Face-to-face semi-structured (group) interviews • Media reports, Newspaper articles – content analysis

<p>Related to sub-output 4.2.2. Policy and decision-makers knowledge on PD issues increased (as a result of UNFPA supported/contribution to interventions??)</p> <p>Related to sub-output 4.2.2.2 P&D issues adopted as a regular agenda by parliamentary Standing Committees (PSCs)</p>	<p>(at least 3 by 2020)</p> <ul style="list-style-type: none"> -Number of recommendations/advice on PD issues given to relevant ministries by PSCs. -Number of parliamentarians advocating for ICPD Agenda at local and national levels 		
<p>UNFPA supported PD reports have high quality and being used widely and frequently</p>	<ul style="list-style-type: none"> -availability of information and knowledge products on population data -Media reports referring to UNFPA supported reports/documents -Number of users (by ministries across all sectors Gender, SRH, Youth, Humanitarian, 7th FYP etc) - UNFPA facilitated enhanced focus on the development and use of data - Reports contain sex and age disaggregated data and are gender and age sensitive. - Number of requests UNFPA receive for technical assistance on knowledge products development 	<p>Secondary Data</p> <p>AWP, IP progress reports, COARs, SIS Reports, Monitoring data, knowledge products, media reports</p> <p>Primary Data</p> <ul style="list-style-type: none"> -National level stakeholders -District (and sub-district) level stakeholders BBS 	<p>Desk Review</p> <p>Semi-structured key informant interviews</p> <p>Observations</p> <p>Content analysis of media reports</p>
<p>UNFPA support helped Age-sex disaggregated data integration across national development instruments and sector policy frameworks with the (varied) needs of vulnerable and marginalized communities, Humanitarian responsiveness, gender equality and relevant population dynamics reflected</p>	<ul style="list-style-type: none"> -Institutional Capacity among the Stakeholders on development of interventions on data needs, analysis and reporting -Increased National capacity to provide up-to-date data in reports - National capacity to conduct research on emerging population issues -Number of requests UNFPA receive for technical assistance - Number of policy dialogues/seminars/policy 	<p>Secondary Data</p> <ul style="list-style-type: none"> - Training reports - Quarterly/Annual project reports - Implementing partners report - Other evaluation reports - Developed national database software - Annual report of GED, BBS, MOHFW; - Other relevant survey reports <p>Primary data</p>	<p>Documents review</p> <ul style="list-style-type: none"> - Interviews of professionals who attended the trainings - Key Informant Interviews

Population and Development - Efficiency

EQ 4. To what extent has UNFPA made good use of its human, financial and administrative resources, and used an appropriate combination of tools and to demonstrate accountability to stakeholders and pursue the achievement of the outcomes defined in the 9th country programme in a timely manner?

Assumptions to be assessed	Indicators	Sources of information	Methods and tools for data collection
PD interventions plans and budgets have sufficient resources to implement interventions	- the status of Budget allocation and utilization to support PD interventions	Secondary Data AWPs, COARs, SIS Report, Monitoring data, Implementing agency reports, Quarterly reports, financial data, AWPs Primary Data UNFPA staff members, GOB implementing partners, Other implementing partners, Development partners, District level stakeholders	-Document review, -stakeholder interviews, -Semi-structured key informant interviews -Observations
UNFPA has appropriately used its human resources to pursue the achievement of the CP9 results	Evidence of sound CO Human Resource management in PD and all other	Same as above	Same as above
UNFPA has appropriately used its financial resources to pursue the achievement of the CP9 results	Evidence of sound CO financial management in PD and all programme components and across the country programme	Same as above	Same as above
UNFPA has appropriately used its technical resources to pursue the achievement of CP9 results	Evidence that technical challenges have been addressed in PD and all other programme components	Same as above	Same as above

Population and Development – Sustainability

EQ 5. In what ways has UNFPA been able to support implementing partners and beneficiaries (rights-holders), in developing capacities and establishing mechanisms to address the challenges to ensure ownership and the durability of effects??

Assumptions to be assessed	Indicators	Sources of information	Methods and tools for data collection
----------------------------	------------	------------------------	---------------------------------------

Capacities of BBS, GED, and Dhaka University (Population Sciences Dept) strengthened during project period to address the issues of data collection, analysis and reporting	-Capacity building interventions relates to sustainability -Evidence of continuity without UNFPA support	Secondary Data Annual Work Plans of programmes, Workshop report, future plan reports (if any), OUs Primary Data -BBS, GED selected staff members -Dhaka University staff members --UNFPA PD staff	Review of documents Face to face interviews Brief questionnaire
CP9 plans have exit strategies relevant to PD programme interventions	-Evidence of clear exit strategies in plan -Evidence of implementation plans in keeping with exit strategies	Secondary Data Annual Work Plans of programmes, related programme documents, MOUs, Financial plans. Primary Data BBS, GED selected staff members -Dhaka University staff members -MOHFW selected members -UNFPA PD staff	Review of documents Interviews with IP and PD team members
Component 2: Strategic Positioning (Coordination (plus coverage, coherence, connectedness) – Humanitarian Settings)			
EQ 6 To what extent did the UNFPA country office contribute to the good functioning of coordination mechanisms and to an adequate division of tasks (avoiding overlap and duplication of activities/seeking synergies) within the United Nations system?			
Assumptions to be assessed	Indicators	Sources of Information	Methods and tools for data collection
UNFPA CO has actively contributed to UNCT working groups and joint initiatives.	-Evidence of active participation in UN working groups -Evidence of leading role by UNFPA in the working groups/joint initiatives corresponding to its mandated areas	Secondary Data Programme Documents, Minutes of UNCT meetings, Minutes of UNDAFP outcome groups meetings, Joint Program documents, M&E reports, SPR/COAR, UNDAF Annual Reports (2017 report) Primary Data - UNDAF Outcome working groups, UNCT members, CO staff, UNCT Coordinator, UNRC	- Interviews - Document review
UNFPA has positioned itself well to enhance the UNCT's emergency preparedness and response	-Evidence that UNFPA is an active contributor to UNCT coordination mechanisms and joint initiatives in the area of emergency preparedness and response	Secondary Data Programme Documents, Minutes of UNCT meetings, M&E reports, SPR/COAR, UNDAF Annual Reports, UN Agency representatives, financial documents	Interviews, document review

UNFPA took into account the country's vulnerability to disasters and emergencies, both at the planning and the implementation stages	-UNFPA CPAP and updated project documents -Financial Allocations	Primary Data - Humanitarian Coordination Team (HCT) UNCT members, CO staff, UNCT Coordinator, UNFPA Humanitarian Coordinator/Specialist , UNOCHA rep/staff	
EQ 7. To what extent has the Country Office established, maintained and leveraged different types of partnerships to utilize UNFPA comparative strength to achieve the outputs and outcomes of CP9?			
Assumptions to be assessed	Indicators	Sources of information	Methods and tools for data collection
UNFPA offers unique service to UNDAF : Compared to other UN agencies (such as i.e. UNICEF, UNDP as well as WHO) working in similar programmatic areas; UNFPA has demonstrated specific technical contribution to the country's development agenda	UNFPA role/contribution to national priorities Specific technical skills in CO Status of exiting national capacities to contribute to the issues/areas that UNFPA is contributing to Reference made to UNFPA planning documents, UNCT meetings and discussions minutes,	- Secondary Data: Reports, MDG, SDG, UNDAF reviews, Documents including Media News- Reports (monitoring, progress reports, meeting minutes Primary Data UN Agency representatives -key informants from implementing agencies -Relevant UN agency for relief and rehabilitation -UNFPA CO staff, IP representatives (relevant ones), -Representatives of other development partners (including relevant NGOs)	KI Interviews KI Interviews -Document review -News media review -Semi-structured interviews
UNFPA technical services not available in any other similar agency National counterparts and other development actors perceive, recognize and recall UNFPA's performance in the country as a contribution that is unique, or inherent to UNFPA. UNFPA is perceived as a champion	-Specific examples by other development partners about UNFPA contributions that is unique to CO's ability. -Reference to UNEPA contribution in interventions that were not available with other partners -Reference to UNFPA contribution that enhanced the other partners' contribution to the development results -timeliness of UNFPA contribution and quality of response (subjective)	Secondary Data -Media reports -Beneficiaries (at institutional level) -Donor community, Desk review of the results of any joint cooperation, progress reports, meeting minutes) Primary data UN staff , key IPs, Donors, -Implementing agency staff, Strategic partners (donors and policy makers), Interviews within the Government Institutions	KI Interviews -Document review -News media review -Semi-structured interviews

<p>in responding to crises situations in the country.</p>			
<p>UNFPA coverage UNFPA adds benefits to the humanitarian interventions of other development/humanitarian partners</p>	<p>List of UNFPA comparative strengths and weaknesses in emergency preparedness and response as perceived by stakeholders</p>	<p>UNFPA CO staff, IP representatives (relevant ones), UN Agency representatives Humanitarian organization representatives</p>	
<p>EQ 8. To what extent are UNFPA interventions and approaches to addressing A&Y, SRHR, GBV and harmful practices in humanitarian settings in line with the principles of coverage, coherence and connectedness and in which ways have they been coordinated with other agencies and stakeholders?</p>			
<p>Assumptions to be assessed</p>	<p>Indicators</p>	<p>Sources of information</p>	<p>Methods and tools for data collection</p>
<p>UNFPA development programme interventions are in line with humanitarian principles</p>	<ul style="list-style-type: none"> • Connections of UNFPA humanitarian programme intervention relevant to P&D agenda with development activities • Efforts and mechanisms to enable and support coordination of humanitarian activities in the UNFPA outcome areas • UNFPA role in P&D relevant to humanitarian cluster coordination 	<p>Secondary Data AWP, COAR, SIS Report</p> <p>Primary Data Ministry of Finance, Economic Relations Division, GOB Implementing Partners, Other Implementing partners, Development partners, UNFPA staff members, UNRC, UNCT members</p>	<p>Desk Review</p> <p>Semi-structured key informant interviews</p> <p>Focus group discussions</p>
<p>Linkages have been established between the relief and the recovery phases; and capacity of local stakeholders has been supported and developed.</p>	<ul style="list-style-type: none"> -Efforts and mechanisms to support and develop capacity of local stakeholders -Preparedness interventions are integrated into the P&D regular development interventions -PD's input in data coordination of humanitarian activities in the UNFPA outcome areas -Role and availability of data in relevant interventions in humanitarian cluster coordination -A shared strategy across main humanitarian actors to ensure a coherent approach in the use of data 	<p>Secondary Data AWP, COAR, SIS Report</p> <p>Primary Data -GOB Implementing Partners -Other Implementing partners, -Development partners, UNFPA staff members, UNRC, UNCT members</p>	<p>Desk Review</p> <p>Semi-structured key informant interviews</p> <p>Focus group discussions (if time and logical arrangements are conducive to conduct FGD)</p>

Annex-5: Data Collection Tools

Implementing Partners Interview Guide CPE UNFPA B'desh

Introduction:

- a. Explanation of the Country Programme Evaluation purpose and objectives
- b. Four person evaluation team
- c. Expected use of results
- d. Confidentiality of discussion in line with UNEG norms and standards

1. Objectives of their part of the UNFPA programme and ways in which this is meant to be achieved

- a. In programme outcome areas concerned, incl. SRHR; A/Y; Gender; PD
- b. Results chain of the intervention
- c. Rationale of interventions at national and sub-national levels

2. Fit with IP strategies and policy frameworks

- a. Relation to IP strategies
- b. Issues of targeting of equity and vulnerability

3. Results achieved compared to planning - focus on output level changes

- a. Outputs achieved so far (incl. capacity development at individual, organizational and enabling environment levels)
- b. What has worked / what has not worked
- c. Enabling and constraining factors to achieving results

4. Partnership and process issues

- a. UNFPA as a partner / duration and kind of relationship
- b. Efficiency and timeliness issues
- c. Types of engagement at policy level and implementation level

5. Monitoring and Evaluation

- a. M&E system in place – own system and provision of data for UNFPA – fit concerned
- b. Disaggregation of data for monitoring purposes
- c. Use of data to inform programme management
- d. Other use of M&E data and M&E capacities built

6. UNFPA Comparative advantage and value added

- a. Comparative advantage of UNFPA vis a vis other UN agencies and DPs/ (I)NGOs
- b. Overlap with other UN agencies / DPs/ (I)NGOs
- c. What has been the added value of UNFPA so far

7. Lessons learned

- a. Which experiences would be useful for application beyond the context in Bangladesh

8. Recommendations for future support

- a. What would UNFPA need to focus on from your perspective in next country programme cycle
- b. Which aspects of the programme need to be continued, what needs to change

9. Other issues that you would like to mention relevant to the present evaluation

Donor Interview Guide CPE UNFPA Bangladesh

Introduction

- a. Explanation of the Country Programme Evaluation purpose and objectives
- b. Four person evaluation team
- c. Expected use of results
- d. Confidentiality of discussion in line with UNEG norms and standards

1. **Support provided to UNFPA in programme areas concerned**

- a. SRHR; A/Y; Gender; PD
- b. In development and humanitarian context

2. **Relation of support to donor strategies and UN frameworks**

- a. Relation to donor strategies and policies
- b. Support to reaching the SDGs
- c. Targeting of programme interventions

3. **Monitoring and Reporting System in place - in development / humanitarian context**

- a. M&E system in place – UNFPA reporting regularity and quality
- b. Disaggregation of data for monitoring purposes
- c. Use of data to inform programme management

4. **Results achieved compared to planning - focus on output level changes - in development and humanitarian programming**

- a. Capacities developed so far – what is still required
- b. What has worked / what has not worked
- c. Enabling and constraining factors to receiving results

5. **Partnership and process issues - in development and humanitarian programming**

- a. UNFPA as a partner / kind of relationship
- b. Efficiency and timeliness issues
- c. Types of engagement at policy level and implementation level

6. **Coordination of support with other DPs - in development and humanitarian programming**

- a. Coordination mechanisms in place
- b. Role played by UNFPA

7. **UNFPA Comparative advantage and value added - in development and humanitarian programming**

- a. Comparative advantage of UNFPA vis a vis other UN agencies
- b. Overlap with other UN agencies

8. **Lessons learned - in development and humanitarian programming**

- a. Which experiences would be useful for application beyond B'desh context

9. **Recommendations for UNFPA's future programming in Bangladesh**

- d. What would UNFPA need to focus on in the next country programme cycle

10. **Other issues** that you would like to mention relevant to the present evaluation

District and Upazilla Level Interview Guide CPE UNFPA Bangladesh

Introduction:

- a. Explanation of the Country Programme Evaluation purpose and objectives
- b. Four person evaluation team
- c. Expected use of results
- d. Confidentiality of discussion in line with UNEG norms and standards

1. Objectives of UNFPA support and ways in which these are meant to be achieved

- a. In programme outcome areas concerned, incl. SRHR; A/Y; Gender; PD
- b. Results chain of the intervention , ways in which activities lead to results
- c. Rationale of interventions at district level

2. Fit with IP strategies and policy frameworks

- a. Relation to District level priorities and plans
- b. Who are the most vulnerable groups in the district
- c. What measures were taken to ensure inclusion of these groups in interventions

3. Results achieved compared to planning - focus on output level changes

- a. Results achieved so far incl.
 - Enhanced capacities of health service providers
 - Increased access of adolescents and youth to SRH services
 - Demand for contraceptives satisfied
 - Live births attended by midwives (or other skilled birth attendants)
 - District monitoring system in place for midwives
 - Disaster prone district with MISP implementation capacity
- b. What has worked / what has not worked
- c. Enabling and constraining factors to achieving results

4. Partnership and process issues

- a. UNFPA as a partner / duration and kind of relationship
- b. Efficiency and timeliness issues
- c. Types of engagement at policy level and implementation level

5. Monitoring and Evaluation

- a. M&E system in place – own system and provision of data for UNFPA – fit concerned
- b. Disaggregation of data for monitoring purposes
- c. Use of data to inform management of district level development processes
- d. M&E capacities built

6. UNFPA Comparative advantage and value added

- a. Comparative advantage of UNFPA vis a vis other UN agencies and DPs/ (I)NGOs
- b. Overlap with other UN agencies / DPs/ (I)NGOs
- c. What has been the added value of UNFPA so far

7. Lessons learned

- a. Which experiences would be useful for application beyond the context in Bangladesh

8. Recommendations for future support

- a. What would UNFPA need to focus on in the next country programme cycle
- b. Which aspects of the programme need to be continued, what needs to change

9. Other issues that you would like to mention relevant to the present evaluation

District / Upazilla Level Facility Interview Guide UNFPA Bangladesh

Introduction:

- a. Explanation of the Country Programme Evaluation purpose and objectives
- b. Four person evaluation team
- c. Expected use of results
- d. Confidentiality of discussion in line with UNEG norms and standards

1. Objectives of UNFPA support and ways in which these are meant to be achieved

- a. Objectives in programme outcome areas concerned, incl. SRHR; A/Y; Gender
- b. Results chain of the intervention, ways in which activities lead to results
- c. Rationale of interventions at district/upazilla facility level

2. Fit with Government strategies and policy frameworks

- a. Relation to district/upazilla level priorities and plans
- b. Who are the most vulnerable groups in the district/upazilla and what are their specific SRHR needs
- c. To what extent have measures been taken to ensure inclusion of vulnerable groups in development interventions

3. Facility level results achieved compared to planning - focus on output level changes

- a. Results achieved so far (see indicators below to guide discussion)
- b. What has worked / what has not worked
- c. Enabling and constraining factors to achieving results

4. Partnership and process issues

- a. UNFPA as a partner / duration and kind of relationship
- b. Efficiency and timeliness issues
- c. Types of engagement at policy level and implementation level

5. Monitoring and Evaluation

- a. M&E system in place – own system and provision of data for UNFPA – fit concerned
- b. Disaggregation of data for monitoring purposes
- c. Use of data to inform management of district level development processes
- d. M&E capacities built

6. UNFPA Comparative advantage and value added

- a. Comparative advantage of UNFPA vis a vis other UN agencies and DPs/ (I)NGOs
- b. Overlap with other UN agencies / DPs/ (I)NGOs
- c. What has been the added value of UNFPA so far

7. Lessons learned

- a. Which experiences would be useful for application beyond the context in Bangladesh

8. Recommendations for future support

- a. What would UNFPA need to focus on from your perspective in the next country programme cycle in the upazilla
- b. Which aspects of the programme need to be continued, what needs to change

9. Other issues that you would like to mention relevant to the present evaluation

Discussion of results at Facility Level making use of selected RRF indicators

Outcome Level Changes

- Enhanced capacities of health service providers
- Increased access of adolescents and youth to SRH services
- Demand for contraceptives satisfied
- Live births attended by midwives / skilled birth personnel

Output Level Changes

Maternal and Neo-natal Health

- District monitoring system in place for midwives
- Percentage of union health complexes providing 24/7 basic EMONC services (network for reference)
- Number of midwives trained in provision of 24/7 EMONC services for complex deliveries
- Percentage of health facilities in which midwives have been posted in district/upazilla
- Number of upazilla health complexes that provide midwife led continuum of care
- Number of stock outs of life saving drugs
- Implementation of MPDSR according to the national guideline and results obtained
- Increase of births at public facilities

Family Planning

- Percentage of facilities where service providers are inserting post-partum IUDs
- Percentage of facilities providing at least four modern contraceptive methods
- Access to family planning for married adolescents and youth
- Access to family planning for unmarried adolescents and youth

Fistula

- Number of facilities with a fistula corner
- Number of fistula cases identified and number referred for treatment
- Rehabilitation of fistula survivors and use of a multi-sector approach
- Treatment of fistula survivors

Cervical Cancer

- Percentage of facilities that provide cervical cancer screening by trained service providers
- Costs of cervical cancer screening for women concerned
- Number of women screened for cervical cancer using VIA method
- Percentage of facilities that provide treatment for cervical cancer by trained service providers

STI / HIV / Equity

- Does the district hospital provide STI screening by trained service providers
- Does the district hospital provide STI treatment by trained service providers
- Does the district hospital have a clear STI case management protocol and referral pathway

GBV

- Number of health workers capacitated in provision of health services for GBV survivors

- Number of UHCs with standardized rape treatment kits available
- Inclusion of GBV in health MIS at facility level

Humanitarian

- Disaster prone district with MISP implementation capacity
- Agency identified to lead the implementation of MISP
- Plan for comprehensive reproductive health services integrated into primary health care

Midwife Interview Guide CPE UNFPA Bangladesh

Introduction:

- a. Explanation of the Country Programme Evaluation purpose and objectives
- b. Four person evaluation team
- c. Expected use of results
- d. Confidentiality of discussion in line with UNEG norms and standards

1. Health related experience and Midwifery training received

- a. Background before entering the midwifery training
- b. Midwifery training received, balance between theory and practice
- c. Access to library, internet and skills lab during the training
- d. Satisfaction with training and learnings concerned

2. Position in facility

- a. Posting in hospital and level of satisfaction with placement
- b. Relationships with doctors and nurses
- c. Opportunity to conduct deliveries in practice
- d. Enabling and constraining factors to practice learnings

3. Facility related issues

- a. To what extent are the EMONC requirements in place in the facility that you work in
- b. Does the facility operate on a 24/7 basis
- c. Do you make use of a partograph during delivery
- d. Do you work together with another midwife for most of the time
- e. Number of stock-outs of life saving drugs
- f. Are SRHR services available to vulnerable groups, including married and unmarried adolescents and youth and other vulnerable groups
- g. What measures are in place to support vulnerable groups to make use of SRH services

4. Results achieved informed by training

- a. What support have you been able to provide on ANC and number of women concerned?
- b. How often have you been able to recognize danger signs of pregnancies?
- c. How have you responded to these signs in the instances concerned?
- d. What is the number of normal deliveries (NVDs) that you have attended to?
- e. Has the training prepared you sufficiently to deal with all aspects of the NVD?
- f. To what extent were women of vulnerable groups part of the women served?
- g. What type of support have you provided to post-natal care and family planning (PPFP)?
- h. What enabling and constraining factors can you identify in terms of your achievement of results?

5. Monitoring and Evaluation

- a. M&E system in place – hospital system and provision of data for UNFPA – fit concerned?
- b. Disaggregation of data for monitoring purposes?
- c. Use of data to inform management of deliveries?
- d. M&E capacities built?

6. Lessons learned

- a. Which experiences would be useful for application beyond the context in the hospital

7. Recommendations for future support

- a. Based on your experience, what adaptations are needed to the midwifery training
- b. What other support is required for you to implement what you have learned

8. Other issues that you would like to mention relevant to the present evaluation?
